Seventh International TRON Project Symposium. The TRON Project was proposed by Dr. Ken Sakamura of the University of Tokyo, with the aim of designing a new, comprehensive computer architecture that is open to worldwide use. The TRON Association is now made up of over 140 companies and organizations, including 25 overseas firms or their affiliates. A basic goal of TRON Project activities is to offer the world a human-oriented computer culture, that will lead to a richer and more fulfilling life for people throughout the world.
