**3 months of business bank statements: Profit First** Mike Michalowicz, 2017-02-21 Author of cult classics *The Pumpkin Plan* and *The Toilet Paper Entrepreneur* offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: · Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. · A small, profitable business can be worth much more than a large business surviving on its top line. · Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

**3 months of business bank statements: Business Capital 101** Roberta A. Pellant, Tony Drexel-Smith, 2021-04-26 The purpose of this book is to define the process and protocols of the TASASS™ score. It also serves as the textbook for the USCGA™ TASASS™ certification course. It was written as a manual for students, entrepreneurs, finance professionals, advisors, and consultants. It defines the types of capital available and documentation requirements to achieve “success” in the capital marketplace. Success is defined as a trifecta of: 1) the enterprise acquiring capital; 2) the business becoming successful and 3) the capital source(s) receiving a positive outcome. Business Capital 101 provides clarity in an otherwise complicated environment of gaining access to capital for qualified enterprises. Our mission is to provide a compliant, professional, time-sensitive, cost-conscious, and realistic approach to the business finance process. We accomplish this mission by the implementation of a due diligence process known as the TASASS™ score. The TASASS™ score was developed as a result of a study of more than 300 enterprises engaged by me since 2008 wherein, I was able to determine the more than 300 common attributes amongst successful and failed ventures. The TASASS™ score is a combination of a Transaction

Analysis™ (TA), a Situation Analysis™ (SA) implemented in a Software (S) that results in a Score (S). The TASASS™ score is a standardized objective due diligence process that serves capital markets during the enterprise vetting phase of capitalization. The software was created based on a 10-year study of 300 applicants. The goal of the proprietary Software as a Service (SaaS) is to identify opportunities that achieve a TASASS™ score in excess of 92.5%, known as “TASASS Prime™.” TASASS™ is an acronym for: Transaction Analysis Situation Analysis Scoring Software™. The TASASS™ score was developed by Tony Drexel Smith through the financial and human capital resources of: TASASS, Inc, The Association of Blue Moon Advisors, Blue Moon Advisors, Inc., Blue Moon Consortium, Inc., US Capital Global, SUMATICI, Inc., and TD Smith & Associates. Enterprises that have raised capital successfully have the following commonalities: they sought the right type of capital for their stage of development and ability to repay; they created documentation that speaks to the correct capital; and they earned a minimum of 925 out of the 1,000 points possible in our TASASS™ score. **3 months of business bank statements:** *A Matter of Identity* Ben Igwe, 2023-09-30 Jamike Nnorom, an only male child of his family, was educated in the United States of America. He returned to his village in Africa on what he hoped would be a brief visit to see his widowed mother after years of absence, with the hope of coming back to America. Under circumstances he least expected, he could not return, but instead started a family. A male child with an unusual body mark is born to the couple and the oracle offered divination on behalf of the offspring. *A Matter of Identity* is a sequel to Ben Igwe's Award winning debut novel, *Against the Odds*. With interest in human and national relationships, cultural growth, and assimilation, he adroitly weaves history and cultural ethos, particularly the philosophical tenets of reincarnation in Igbo traditional society, into this novel. The author's synergistic plot arrangement, and the capsular density of its thematic construct, with myriad settings strewn together by their subject affinity, and rendered with spellbound imagery and folksy narrative, compel the reader to unconsciously surrender to an enchanting rhythmic prose. *A Matter of Identity* is anthropological in scope and reach; foreshadowing with nostalgic relish, yet projecting a new horizon of mutual reintegration symbolized in *Ahamefule* to underscore and affirm the inextricable nexus in the afro-diasporic continuum.

**3 months of business bank statements: The Entrepreneur'S Edge Ii** Daniel R. Hogan Jr., PhD, 2016-08-18 There are many reasons for business failure, chief among which is management. Invariably, entrepreneurs / business owners usually blame outside forces for their shortcomings or ill luck. Often the very traits that lead them to launch an entrepreneurial enterprise are the traits that lead to the final demise of their dreams. The internal locus of control and if its going to be its up to me attitude that entrepreneurs possess and acknowledge as a factor of success is rejected as a contributing factor of failure. The reason for trouble and a resultant failure is most often attributed to the lack of capital and the lack of the ability, knowledge, and capacity to obtain capital both in the form of debt and equity and, most prevalent, the lack of positive cash flow. This book will help the entrepreneur who may be well versed in a given field, expertise, or industry to fill the ever-present task of constantly seeking required capital. In addition to the increasing management, communication, and people skills that the perhaps technically talented enterpriser must soon master is the realization that he/she must also always seek capital if the business is to survive and grow. Capital, working capital, positive cash flow is the lifeblood of the business. Without it, there is no growth, no survival, and no life. In the entrepreneurs enthusiasm, the zeal to achieve the vision, the

exhilaration and activity of the moment, the need for money, and a timely positive cash flow are often overlooked. They are the very life force of the business, the oxygen for the venture, without which it will die. The Entrepreneurs Edge II will assist the planning necessary in finding the money, raising the money, making the money, and keeping the money. It, along with the accompanying books in the series (The Entrepreneurs Edge: Finding the Money, The Entrepreneur Manager: The Business Mans Business Plan, The Entrepreneurs Guide to Start, Grow, and Manage a Profitable Business, and Economics Entrepreneurship Ethics : The Es of Business), helps to fill the toolbox necessary for every entrepreneur and business manager.
