40 under 40 dallas business journal: 20 Under 40 Deborah Treisman, 2010-11-23 In June 2010, the editors of The New Yorker announced to widespread media coverage their selection of 20 Under 40—the young fiction writers who are, or will be, central to their generation. The magazine published twenty stories by this stellar group of writers over the course of the summer. They are now collected for the first time in one volume. The range of voices is extraordinary. There is the lyrical realism of Nell Freudenberger, Philipp Meyer, C. E. Morgan, and Salvatore Scibona; the satirical comedy of Joshua Ferris and Gary Shteyngart; and the genre-bending tales of Jonathan Safran Foer, Nicole Krauss, and Téa Obreht. David Bezmozgis and Dinaw Mengestu offer clear eyed portraits of immigration and identity; Sarah Shun-lien Bynum, ZZ Packer, and Wells Tower offer voice-driven, idiosyncratic narratives. Then there are the haunting sociopolitical stories of Chimamanda Ngozi Adichie, Daniel Alarcón, and Yiyun Li, and the metaphysical fantasies of Chris Adrian, Rivka Galchen, and Karen Russell. Each of these writers reminds us why we read. And each is aiming for greatness: fighting to get and to hold our attention in a culture that is flooded with words, sounds, and pictures; fighting to surprise, to entertain, to teach, and to move not only us but generations of readers to come. A landmark collection, 20 Under 40 stands as a testament to the vitality of fiction today.

In addition to historical research, this book includes interviews with developers at three of the largest Bible software companies and field work with digital and print Bible readers in several churches. 40 under 40 dallas business journal: *Latino America* [2 volumes] Mark Overmyer-Velazquez, 2008-10-30 A Hispanic and Latino presence in what is now the United States goes back to Spanish settlement in the sixteenth century in Florida and the progressive U.S. conquest of the Spanish-controlled territory of California and the Southwest by 1853 and the Gadsden Purchase. Mexicans in this newly American territory had to struggle to hold on to their land. The overlooked history and the debates over new immigration from Mexico and Central America are illuminated by this first state-by-state history of people termed Latinos or Hispanics. Much of this information is

hard to find and has never been researched before. Students and other readers will be able to trace the Latino presence through time per state through a chronology and historical overview and read about noteworthy Latinos in the state and the cultural contributions Latinos have made to communities in that state. Taken together, a more complete picture of Latinos emerges. The information allows understanding of the current status-where the Latino presence is now, what types of work they are doing, and how they are faring in places with only a small Latino presence. All 50 states and the District of Columbia are covered in individual chapters. A chronology starts the chapter, giving the main dates of Latino presence and important events and population figures. The historical overview is the core of the chapter. The cast of Latino presence and how they have made their livelihood along with relations with non-Latinos are discussed. A Notable Latinos section then provides a number of short biographical profiles. Cultural contributions are showcased in the final section, followed by a bibliography. A selected bibliography and photos complement the chapters.

40 under 40 dallas business journal: **Broken Promises** Robert Tillman, 1998 As the costs of medical care have skyrocketed, so has the amount of money lost to fraudulent health insurance providers. These bogus operations typically victimize individuals on the lower end of the socioeconomic scale who then face staggering medical bills without coverage. Robert Tillman shows how market conditions and weak regulatory structures have allowed these crimes to occur, and cites recent institutional and legal changes that have created both new demands for insurance and greater opportunities for fraud. He also analyzes the political and economic climate that enables these criminal practices to flourish. Drawing on court documents, congressional hearings, and actual cases, Tillman provides numerous examples of the three most prevalent forms of fraud: scams involving multiple employer welfare arrangements, employee leasing schemes, and fictitious labor unions. He also examines recent innovations in insurance fraud such as 24-hour plans and coverage offered by dubious religious organizations. With the regulation of health insurance currently in chaos, Broken Promises offers a critical examination of this insidious form of white-collar crime. It is a timely book that raises important questions about the definition of insurance and consumer protection.

Hargrove, 2019-01-17 This resource produces the first comprehensive history of the state's federal courts from the inception of the Mississippi Territory to the late twentieth century. Using archival material and legal documents, David M. Hargrove untangles the state's complex legal history, which includes slavery and secession, the Civil War and Reconstruction, Jim Crow and civil rights. In this important overview of the United States courts in Mississippi, Hargrove surveys the state's federal judiciary as it rules on key issues in Mississippi's past. He examines the court as it mediates conflict between regional and national agendas as well as protects constitutional rights of the state's African American citizens during the Reconstruction and civil rights eras. Hargrove traces how political activities of the state's federal judges affected public perceptions of an independent judiciary. Growing demands for federal judicial and law enforcement infrastructure, he notes, called for courthouses that remain iconic presences in the state's largest cities. Hargrove presents detailed judicial biographies of judges who shaped Mississippi's federal bench. Commissioned by the state's federal judiciary to write the book, he offers balanced perspectives on jurists whose reputations have suffered in hindsight, while illuminating the achievements of those who have received little public

recognition.

40 under 40 dallas business journal: Conflicted Identities Alexandra Staub, 2015-10-23
Nation-states have long used representational architecture to create symbolic identities for public consumption both at home and abroad. Government buildings, major ensembles and urban plans have a visibility that lends them authority, while their repeated portrayals in the media cement their image as icons of a shared national character. Existing in tandem with this official self, however, is a second, often divergent identity, represented by the vast realm of domestic space defined largely by those who occupy it as well as those with a vested interest in its cultural meaning. Using both historical inquiry and visual, spatial and film analysis, this book explores the interaction of these two identities, and its effect on political control, class status, and gender roles. *Conflicted Identities* examines the politicization of both public and domestic space, especially in societies undergoing rapid cultural transformation through political, social or economic expansion or restructuring, when cultural identity is being rapidly modernized, shifted, or realigned to conform to new demands. Using specific examples from a variety of national contexts, the book examines how vernacular housing, legislation, marketing, and media influence a large, but often underexposed domestic culture that runs parallel to a more publicly represented one. As a case in point, the book examines West Germany from the end of World War II to the early 1970s to probe more deeply into the mechanisms of such cultural dichotomy. On a national level, post-war West Germany demonstratively rejected Nazi-era values by rebuilding cities based on interwar modernist tenets, while choosing a decidedly modern and transparent architecture for high-visibility national projects. In the domestic realm, government, media and everyday citizens countered this turn to state-sponsored modernism by embracing traditional architectural aesthetics and housing that encouraged patriarchal family structures. Written for readers interested in cultural theory, history, and the politics of space as well as those engaged with architecture and the built environment, *Conflicted Identities* provides an engaging new perspective on power and identity as they relate to architectural settings.

40 under 40 dallas business journal: Strategic Newspaper Management Conrad C. Fink, 1988 The time is right for bright, aggressive newspaper managers to influence and prosper, but bleak indeed for those newspapers whose managers lack the requisite knowledge. Using case studies and examples from the business, Fink shows why some newspapers change with the times and surge ahead and why some continue to publish to an eroding market base and fail. The difference between success and failure, he concludes, is in long-range planning and in daily operating methodology—in, simply, the professionalism of management at all levels.
