From the initial startup phase to the mature business stage, this guide offers practical advice and actionable insights for achieving sustainable and profitable growth.

Introduction: Understanding the 7 Stages of Business Growth

The journey of a business is rarely linear. It's a dynamic process characterized by distinct stages, each presenting unique opportunities and challenges. Understanding these 7 stages of business growth is crucial for strategic planning, resource allocation, and ultimately, long-term success. This guide provides a detailed overview of these stages, offering actionable advice and insights to help your business thrive.

Stage 1: Existence - The Seed of an Idea

This initial stage focuses on establishing the foundation of your business. You're likely bootstrapping, validating your business idea, and building a Minimum Viable Product (MVP). Best Practices: Focus on core product/service development, secure initial funding (if needed), and build a strong network. Pitfalls: Ignoring market research, neglecting financial planning, and

underestimating the time and effort required.

Stage 2: Survival - Finding Your Footing

The survival stage is about generating enough revenue to cover expenses and ensure the business's viability. Cash flow management becomes paramount. Best Practices: Focus on customer acquisition, refine your offering based on feedback, and establish efficient operations. Pitfalls: Ignoring customer feedback, poor cash flow management, and neglecting marketing efforts.

Stage 3: Success - Building Momentum

In the success stage, your business demonstrates consistent profitability and growth. You're beginning to establish a solid reputation and customer base. Best Practices: Invest in marketing and sales, build a strong team, and explore opportunities for expansion. Pitfalls: Becoming complacent, neglecting innovation, and failing to scale efficiently.

Stage 4: Take-off - Rapid Expansion

This stage is characterized by rapid growth and expansion. You're likely experiencing significant increases in revenue and market share. Best Practices: Develop clear growth strategies, optimize processes for scalability, and secure additional funding (if necessary). Pitfalls: Overextending resources, neglecting quality control, and failing to adapt to rapid change.

Stage 5: Maturity - Consolidation and Optimization

The maturity stage is about consolidating your market position and optimizing operations for efficiency and profitability. Innovation and diversification become crucial for sustaining growth. Best Practices: Focus on operational excellence, diversify product/service offerings, and explore new markets. Pitfalls: Becoming stagnant, failing to adapt to changing market conditions, and neglecting innovation.

Stage 6: Decline - Addressing Challenges

This stage marks a slowdown in growth or even a decline in revenue. Addressing the underlying

causes is critical for revitalization or a graceful exit. Best Practices: Analyze market trends, identify weaknesses, and implement corrective measures. Consider strategic partnerships or acquisitions. Pitfalls: Ignoring warning signs, failing to adapt to change, and clinging to outdated strategies.

Stage 7: Renewal or Decline - Strategic choices

This final stage involves either a successful revitalization of the business through innovation and adaptation, or a strategic exit (sale, liquidation). The choice depends on the circumstances and the owner's goals. Best Practices: Evaluate all options carefully, secure professional advice, and execute a well-defined plan. Pitfalls: Making emotional decisions, neglecting professional guidance, and delaying critical actions.

Conclusion

Navigating the 7 stages of business growth requires careful planning, adaptability, and a willingness to learn and evolve. By understanding the unique challenges and opportunities presented at each stage, you can increase your chances of building a successful and sustainable business. Remember, the journey is not always smooth, but by proactively addressing challenges and embracing change, you can guide your business towards long-term prosperity.

FAQs

1. What are the key indicators of each stage of business growth? Each stage has specific financial and operational indicators. Look for metrics such as revenue growth, profitability, market share, customer acquisition costs, and employee count.
2. How can I identify which stage my business is currently in? Assess your business performance against the key indicators of each stage. Honest self-assessment is crucial.
3. What is the importance of adapting strategies at each stage? Adapting strategies is critical for success because the challenges and opportunities change significantly as your business evolves.
4. How can I secure funding at different growth stages? Funding sources vary depending on the stage. Early-stage businesses may rely on bootstrapping, angel investors, or venture capital, while mature businesses may explore debt financing or equity offerings.
5. What role does innovation play in each stage? Innovation is essential throughout all stages, ensuring your business stays competitive and relevant.
6. How can I prevent my business from declining? Proactive monitoring of key metrics, continuous

adaptation to market changes, and a commitment to innovation are crucial.

7. What are some common mistakes businesses make during growth? Ignoring market trends, neglecting customer feedback, poor cash flow management, and failing to adapt to change are frequent pitfalls.

8. How important is a strong team in navigating the 7 stages of business growth? A strong team is essential, providing the expertise and support needed to overcome challenges and capitalize on opportunities at each stage.

9. What resources are available to help businesses through each stage of growth? Many resources exist, including business mentors, consultants, online courses, and government programs.

7 stages of business growth: The Start-Up J Curve Howard Love, 2016-08-30 A predictable pattern of success Entrepreneurs who have read early drafts of *The Start-Up J Curve* responded, "I wish I had this book years ago." A start-up unfolds in a predictable pattern; the more aware entrepreneurs are of this pattern, the better able they will be to capitalize on it. Author Howard Love calls this pattern the start-up J Curve: The toughest part of the endeavor is the time between the actual start of a new business and when the product and model are firmly established. *The Start-Up J Curve* gives entrepreneurs the tools they need to get through the early challenges so they can reach the primary value creation that lies beyond. Love brings thirty-five years of start-up experience to this comprehensive guide to starting a business. He outlines the six predictable stages of start-up growth and details the activities that should be undertaken at each stage to ensure success and to avoid common pitfalls. Instead of feeling lost and confused after a setback, start-up founders and investors can anticipate the challenges, overcome the obstacles, and ride the curve to the top.

7 stages of business growth: Scale Jeff Hoffman, David Finkel, 2014-08-14 Your concrete road map to rapidly grow your business and get your life back! Have you ever wanted to grow your business but held back because of fear that it would take over your life? As an owner, it's all too common to feel you have to choose between your personal life and the success of your business. But the surprising truth is that the only way to truly scale and grow your company is to reduce its reliance on you. This means that, done right, scaling ensures that you can grow your business without sacrificing your life. Jeff Hoffman, a serial entrepreneur and former CEO in the Priceline (Priceline Yardsale) family of companies, and David Finkel, CEO of Maui Mastermind, a business coaching company with thousands of clients worldwide, offer a concrete road map for rapidly growing your business while also gaining more personal freedom. You'll not only learn the best strategies to generate growth, but you'll also get proven insider tips to sustain that growth through sound systems, empowered teams, and intelligent internal controls. Hoffman and Finkel will also show you how to overcome predictable obstacles in any pillar of your business—including sales, operations, and finance—with insight for building better lead-generation systems, managing cash flow, and retaining talent. You'll learn how to: • Escape the Self-Employment Trap and build a

business, not a job. • Systematize your business to reduce costs and increase capacity. • Ensure your company survives the “Hit by a Bus” test. • Uncover your company’s top leverage points (and execution strategies to implement what you discover). • Fund your growth with the seven cash flow commandments. • And much more. Scale offers a game plan to work less and get your business to produce more. Written by two worldclass entrepreneurs who have started, scaled, and successfully exited from multiple businesses, which collectively have generated tens of billions of dollars in sales, it gives you their bottom-line best ideas to effectively grow your company. If you have ever felt stuck in your business, not knowing the best way forward, this book is your mustread guide.

7 stages of business growth: *Multi-Unit Leadership* Jim Sullivan, 2011-06-23 Multi-Unit Leadership is the best-selling book used in over 170,000 businesses worldwide. Managing multiple units requires significantly different skills than managing just one. This book details those skills in seven distinct stages and shares the best practices from successful multiunit leaders worldwide. Perfect for regional managers and franchisees who need to know the difference between hands-on management and indirect influence. Written in a detailed and fun format perfect for today's Digital Age leaders, Multiunit Leadership examines the unique role and requirements of managers who are responsible for two to forty units. Our research with over 500 successful Multi-Unit Leaders (MULs) reveals the best practices and unique expertise that differentiates high-performing multitunit leaders from average ones. Chockablock-full of specific examples, expert opinion and case-study scenarios, the seven leadership stages outlined in the book include: Brand Ambassador, Servant Leadership, Marketing Guru, Head Coach, Talent Scout, Synergist and Goal-Getter. You'll learn how to better manage time and projects, how to develop stronger teams, how to get maximum impact from your store visits, and how to consistently build sales by working smarter, not harder. Readers can assess their own strengths and challenges compared to the industry's best MULs at the end of each chapter and compile their own best practices relative to people, performance, and productivity. Companies using the book include McDonald's, American Express, Coca-Cola, Starbucks, Target, Jiffy Lube, Supercuts, Applebee's, and Sam's Club.

7 stages of business growth: *Stall Points* Matthew S. Olson, Derek Van Bever, 2008-01-01 In this probing study of the growth experience of Fortune 100-sized firms across the past fifty years, authors Olson and van Bever find that great companies stop growing not because of market saturation, government regulation, or other external constraints but rather because of a finite set of common strategy mistakes that appear time after time, across industries, across geography, and across the economic cycle.--Jacket.

7 stages of business growth: *The Seven Signs of Ethical Collapse* Marianne M. Jennings, 2006-08-22 Do you want to make sure you · Don't invest your money in the next Enron? · Don't go to work for the next WorldCom right before the crash? · Identify and solve problems in your organization before they send it crashing to the ground? Marianne Jennings has spent a lifetime studying business ethics---and ethical failures. In demand nationwide as a speaker and analyst on business ethics, she takes her decades of findings and shows us in *The Seven Signs of Ethical Collapse* the reasons that companies and nonprofits undergo ethical collapse, including: · Pressure to maintain numbers · Fear and silence · Young 'uns and a larger-than-life CEO · A weak board · Conflicts · Innovation like no other · Belief that goodness in some areas atones for wrongdoing in others Don't watch the next accounting disaster take your hard-earned savings, or accept the perfect job only to find out your boss is cooking the books. If you're just interested in understanding the (not-so) ethical underpinnings of business today, *The Seven Signs of Ethical Collapse* is both a must-have tool and a fascinating window into today's business world.

7 stages of business growth: *Leading Change* John P. Kotter, 2012 From the ill-fated dot-com bubble to unprecedented merger and acquisition activity to scandal, greed, and, ultimately, recession -- we've learned that widespread and difficult change is no longer the exception. By outlining the process organizations have used to achieve transformational goals and by identifying where and how even top performers derail during the change process, Kotter provides a practical resource for leaders and managers charged with making change initiatives work.

7 stages of business growth: Organizational Physics - The Science of Growing a Business Lex Sisney, 2013-03-01 There are hidden laws at work in every aspect of your business. Understand them, and you can create extraordinary growth. Ignore them, and you run the risk of becoming another statistic. It's become almost cliché: 8 out of every 10 new ventures fail. Of the ones that succeed, how many truly thrive-for the long run? And of those that thrive, how many continually overcome their growth hurdles ... and ultimately scale, with meaning, purpose, and profitability? The answer, sadly, is not many. Author Lex Sisney is on a mission to change that picture. After more than a decade spent leading and coaching high-growth technology companies, Lex discovered that the companies that thrive do so in accordance with 6 Laws - universal principles that govern the success or failure of every individual, team, and organization.

7 stages of business growth: *What CEOs Need to Know* Dawn Holly Johnson, 2021-12-05 Every organization on the planet is underperforming as compared to its maximum potential. DO IT FAST - DO-IT-ONCE - BUSINESS TRANSFORMATIONSay goodbye to the old traditions that hinder organizations and the people working in them from being Wildly Successful. Traditional practices create unreliable cash flow, low productivity, customer and employee dissatisfaction, dysfunctional cultures and instability for employees, communities, economies, and societies. This no-nonsense guide provides a timeless organizational model that creates Wildly Successful Enterprises - organizations that are naturally collaborative, innovative, adaptive, and prosperous.

7 stages of business growth: *Scaling Up* Verne Harnish, 2014 In this guide, Harnish and his co-authors share practical tools and techniques to help entrepreneurs grow an industry -- dominating business without it killing them -- and actually have fun. Many growth company leaders reach a point where they actually dread adding another customer, employee, or location. It feels like they are just adding more weight to an ever-heavier anchor they are dragging through the sand. To make matters worse, the increased revenues have not turned into more profitability, so at some point they wonder if the journey is worth the effort. This book focuses on the four major decisions every company must get right: People, Strategy, Execution and Cash. The book includes a series of One-Page tools including the One-Page Strategic Plan and the Rockefeller Habits Execution Checklist, which more than 40,000 firms around the globe have used to scale their companies successfully.

7 stages of business growth: Entrepreneurship Michael Lavery, Chris Littel, 2020-01-16 This textbook is intended for use in introductory Entrepreneurship classes at the undergraduate level. 7 stages of business growth: Growth IQ Tiffani Bova, 2018-08-14 A WALL STREET JOURNAL BESTSELLER Do you know the best way to drive your company's growth? If not, it's time to boost your Growth IQ. Trying to find the one right move that will improve your business's performance can feel overwhelming. But, as you'll discover in Growth IQ, there are just ten simple--but easily misunderstood--paths to growth, and every successful growth strategy can be boiled down to picking the right combination and sequence of these paths for your current context. Tiffani Bova travels around the world helping companies solve their most vexing problem: how to keep growing in the face of stiff competition and a fast-changing business environment. Whether she's presenting to a Fortune 500 board of directors or brainstorming over coffee with a startup founder, Bova cuts through the clutter and confusion that surround growth. Now, she draws on her decades of experience and more than thirty fascinating, in-depth business stories to demonstrate the opportunities--and pitfalls--of each of the ten growth paths, how they work together, and how they apply to business today. You'll see how, for instance: * Red Bull broke Coca-Cola and PepsiCo's stranglehold on the soft drink market by taking the Customer Base Penetration path to establish a foothold with adventure sports junkies and expand into the mainstream. * Marvel transformed itself from a struggling comic book publisher into a global entertainment behemoth by using a Customer and Product Diversification strategy and shifting their focus from comic books to comic book characters in movies. * Starbucks suffered a brand crisis when they overwhelmed their customers with a Product Expansion strategy, and brought back CEO Howard Schultz to course-correct by returning to the Customer Experience path. Through Bova's insightful analyses of these and many other case studies, you'll see why it can be a mistake to imitate strategies that worked for your competitors, or rely on strategies that worked for you in the past. To grow your company with confidence, you first need to grow your Growth IQ.

7 stages of business growth: The Four Steps to the Epiphany Steve Blank, 2013-05-01 The bestselling classic that launched 10,000 startups and new corporate ventures - The Four Steps to the Epiphany is one of the most influential and practical business books of all time. The Four Steps to the Epiphany launched the Lean Startup approach to new ventures. It was the first book to offer that startups are not smaller versions of large companies and that new ventures are different than existing ones. Startups search for business models while existing companies execute them. The book offers the practical and proven four-step Customer Development process for search and offers insight into what makes some startups successful and leaves others selling off their furniture. Rather than blindly execute a plan, The Four Steps helps uncover flaws in product and business plans and correct them before they become costly. Rapid iteration, customer feedback, testing your assumptions are all explained in this book. Packed with concrete examples of what to do, how to do it and when to do it, the book will leave you with new skills to organize sales, marketing and your business for success. If your organization is starting a new venture, and you're thinking how to successfully organize sales, marketing and business development you need The Four Steps to the Epiphany. Essential reading for anyone starting something new.

7 stages of business growth: Clockwork Mike Michalowicz, 2018-08-21 Do you worry that your business will collapse without your constant presence? Are you sacrificing your family, friendships, and freedom to keep your business alive? What if instead your business could run itself, freeing you to do what you love when you want, while it continues to grow and turn a profit? It's possible. And it's easier than you think. If you're like most entrepreneurs, you started your business

so you could be your own boss, make the money you deserve, and live life on your own terms. In reality, you're bogged down in the daily grind, constantly putting out fires, answering an endless stream of questions, and continually hunting for cash. Now, Mike Michalowicz, the author of *Profit First* and other small-business bestsellers, offers a straightforward step-by-step path out of this dilemma. In *Clockwork*, he draws on more than six years of research and real life examples to explain his simple approach to making your business ultra-efficient. Among other powerful strategies, you will discover how to: Make your employees act like owners: Free yourself from micromanaging by using a simple technique to empower your people to make smart decisions without you. Pinpoint your business's most important function: Unleash incredible efficiency by identifying and focusing everyone on the one function that is most crucial to your business. Know what to fix next: Most entrepreneurs try to fix every inefficiency at once and end up fixing nothing. Use the weakest link in the chain method to find the one fix that will add the most value now. Whether you have a staff of one, one hundred, or somewhere in between, whether you're a new entrepreneur or have been overworked and overstressed for years, *Clockwork* is your path to finally making your business work for you.

7 stages of business growth: *CREATE NEW FUTURES* Aviv Shahr, 2016-11-15 The vignettes in this book are all part of the author's discovery journey instigated by the propelling inquiry: what creates the future? Aviv Shahr has integrated his personal and professional experiences to provide immediacy of access, to offer a practical translation of ideas, and to demonstrate how he has applied these techniques in his work.

7 stages of business growth: *Do Scale* Les McKeown, 2019-06-18 Scaling up is something most founders aspire to, especially once the tricky start-up phase has been navigated. It can increase your reach and future proof your business. But how do you scale? And how does it differ from flipping for a quick profit or slower organic growth? Les McKeown advises industry leaders on how to achieve scalable, sustainable growth. In *Do Scale*, he draws from his decades of experience to provide a clear understanding of what's involved, and the strategies needed to take your business (or not-for-profit) to the next level. You'll find out: What it means to scale and if now is the right time; Why founders need to get out of their own way; How to develop winning teams; Your secret weapon for decision making. With practical advice and clear guidance, *Do Scale* is an essential manual for anyone looking to grow a successful and sustainable organisation and turn it into something truly remarkable.

7 stages of business growth: *The Growth Report* Commission on Growth and Development, 2008-07-23 The result of two years work by 19 experienced policymakers and two Nobel prize-winning economists, 'The Growth Report' is the most complete analysis to date of the ingredients which, if used in the right country-specific recipe, can deliver growth and help lift populations out of poverty.

7 stages of business growth: *The Founder's Mentality* Chris Zook, James Allen, 2016-05-17 A Washington Post Bestseller Three Principles for Managing—and Avoiding—the Problems of Growth Why is profitable growth so hard to achieve and sustain? Most executives manage their companies as if the solution to that problem lies in the external environment: find an attractive market, formulate the right strategy, win new customers. But when Bain & Company's Chris Zook and James Allen, authors of the bestselling *Profit from the Core*, researched this question, they found that when companies fail to achieve their growth targets, 90 percent of the time the root causes are internal, not external—increasing distance from the front lines, loss of accountability, proliferating processes and bureaucracy, to name only a few. What's more, companies experience a set of predictable internal crises, at predictable stages, as they grow. Even for healthy companies, these crises, if not managed properly, stifle the ability to grow further—and can actively lead to decline. The key insight from Zook and Allen's research is that managing these choke points requires a "founder's mentality"—behaviors typically embodied by a bold, ambitious founder—to restore speed, focus, and connection to customers: • An insurgent's clear mission and purpose • An unambiguous owner mindset • A relentless obsession with the front line Based on the authors'

decade-long study of companies in more than forty countries, *The Founder's Mentality* demonstrates the strong relationship between these three traits in companies of all kinds—not just start-ups—and their ability to sustain performance. Through rich analysis and inspiring examples, this book shows how any leader—not only a founder—can instill and leverage a founder's mentality throughout their organization and find lasting, profitable growth.

7 stages of business growth: 7 Powers Hamilton Helmer, 2016-10-25 *7 Powers* details a strategy toolset that enables you to build an enduringly valuable company. It was developed by Hamilton Helmer drawing on his decades of experience as a strategy advisor, equity investor and Stanford University teacher. This is must reading for any business person and applies to all businesses, new or mature, large or small.

7 stages of business growth: Connected Strategy Nicolaj Siggelkow, Christian Terwiesch, 2019-04-30 *Business Models for Transforming Customer Relationships* What if there were a way to turn occasional, sporadic transactions with customers into long-term, continuous relationships--while simultaneously driving dramatic improvements in operational efficiency? What if you could break your existing trade-offs between superior customer experience and low cost? This is the promise of a connected strategy. New forms of connectivity--involving frequent, low-friction, customized interactions--mean that companies can now anticipate customer needs as they arise, or even before. Simultaneously, enabled by these technologies, companies can create new business models that deliver more value to customers. Connected strategies are win-win: Customers get a dramatically improved experience, while companies boost operational efficiency. In this book, strategy and operations experts Nicolaj Siggelkow and Christian Terwiesch reveal the emergence of connected strategies as a new source of competitive advantage. With in-depth examples from companies operating in industries such as healthcare, financial services, mobility, retail, entertainment, nonprofit, and education, *Connected Strategy* identifies the four pathways--respond-to-desire, curated offering, coach behavior, and automatic execution--for turning episodic interactions into continuous relationships. The authors show how each pathway creates a competitive advantage, then guide you through the critical decisions for creating and implementing your own connected strategies. Whether you're trying to revitalize strategy in an established company or disrupt an industry as a startup, this book will help you: Reshape your connections with your customers Find new ways to connect with existing suppliers while also activating new sources of capacity Create the right revenue model Make the best technology choices to support your strategy Integrating rich examples, how-to advice, and practical tools in the form of workshop chapters throughout, this book is the ultimate resource for creating competitive advantage through connected relationships with your customers and redefined connections in your industry.

7 stages of business growth: Sticky Branding Jeremy Miller, 2015-01-10 #1 *Globe and Mail* Bestseller 2016 Small Business Book Awards — Nominated, Marketing category *Sticky Brands* exist in almost every industry. Companies like Apple, Nike, and Starbucks have made themselves as recognizable as they are successful. But large companies are not the only ones who can stand out. Any business willing to challenge industry norms and find innovative ways to serve its customers can grow into a Sticky Brand. Based on a decade of research into what makes companies successful, *Sticky Branding* is your branding playbook. It provides ideas, stories, and exercises that will make your company stand out, attract customers, and grow into an incredible brand. *Sticky Branding's* 12.5 guiding principles are drawn from hundreds of interviews with CEOs and business owners who have excelled within their industries.

7 stages of business growth: Long-term Athlete Development Istvan Balyi, Richard Way, Colin Higgs, 2013 *Long-Term Athlete Development* offers an in-depth explanation of the long-term athlete development model, an approach to athlete-centered sport that combines skill instruction with long-term planning and an understanding of human development to produce athlete growth.

7 stages of business growth: How to Write a Great Business Plan William A. Sahlman, 2008-03-01 Judging by all the hoopla surrounding business plans, you'd think the only things standing between would-be entrepreneurs and spectacular success are glossy five-color charts,

bundles of meticulous-looking spreadsheets, and decades of month-by-month financial projections. Yet nothing could be further from the truth. In fact, often the more elaborately crafted a business plan, the more likely the venture is to flop. Why? Most plans waste too much ink on numbers and devote too little to information that really matters to investors. The result? Investors discount them. In *How to Write a Great Business Plan*, William A. Sahlman shows how to avoid this all-too-common mistake by ensuring that your plan assesses the factors critical to every new venture: The people—the individuals launching and leading the venture and outside parties providing key services or important resources The opportunity—what the business will sell and to whom, and whether the venture can grow and how fast The context—the regulatory environment, interest rates, demographic trends, and other forces shaping the venture's fate Risk and reward—what can go wrong and right, and how the entrepreneurial team will respond Timely in this age of innovation, *How to Write a Great Business Plan* helps you give your new venture the best possible chances for success.

7 stages of business growth: The Seven Pillars of Customer Success Wayne McCulloch, 2021-04-27 As a customer success leader, whose insight do you rely on for success? Your field is still maturing, yet your profession is one of the fastest growing in the world. There are tons of books and blogs written by success professionals sharing their experiences and strategies, but how do you know what will work for your specific situation? Whose advice is the expertise you can trust? Wayne McCulloch has more than 25 years of experience in the software industry-years spent in training, adoption, and customer experience, the building blocks for customer success. Now he's sharing what he knows as a chief customer officer leading global success functions. In *The Seven Pillars of Customer Success*, Wayne provides an adaptable framework for building a strong customer success organization. From customer journey actions to the development of transformation advisors, you'll read detailed examples of how companies have put these seven pillars to the test. To create a culture of customer success and stand out in the marketplace, you need a proven framework and knowledgeable perspective-this book provides both, and more.

7 stages of business growth: *Product Life Cycle* Antonella Petrillo, Fabio De Felice, 2021-12-01 Globalization and increased competition are forcing companies to review and improve their production processes to be more sustainable. However, a clear vision and environmental culture are lacking because, even today, companies are motivated to act to improve the environment essentially by compliance with government regulations and the opportunity to achieve profit growth. This book presents practices, challenges, and opportunities for the digital and sustainable transformation of business as we know it.

7 stages of business growth: ADKAR Jeff Hiatt, 2006 In his first complete text on the ADKAR model, Jeff Hiatt explains the origin of the model and explores what drives each building block of ADKAR. Learn how to build awareness, create desire, develop knowledge, foster ability and reinforce changes in your organization. The ADKAR Model is changing how we think about managing the people side of change, and provides a powerful foundation to help you succeed at change.
