amazon internship interview process: Amazon Wisdom Keeper Loraine Y. Van Tuyl, 2017-10-24 With captivating lyricism, Amazon Wisdom Keeper transports us into the multicultural upbringing and transformation of Loraine Van Tuyl, a graduate psychology student and budding shamanic healer who's blindsided by startling visions, elusive drumming, and her inseverable mystical ties to the Amazon rainforest of her native Suriname. Is she in the wrong field, or did her childhood dreams, imaginary guides, and premonitions somehow prepare her for these challenges? Did Suriname's military coup and her family's uprooting move to the US rob her from all that she knew and loved at thirteen to help reveal her soul's purpose, or is she losing her mind by entertaining far-fetched questions and hunches that can't be answered or proven—like wondering if her perplexing life story is shedding light on the double-binds in her field on purpose, and suspecting that her soul's daunting blue print was plotted long before she was even born? Van Tuyl wrestles with these questions and more as she embarks upon her risky quest, enduring test upon test in search of her true self and calling while enrolled in a rigorous academic program that regards intuitive healing methods as unscientific—and even unethical.

amazon internship interview process: Startup CXO Matt Blumberg, 2021-06-09 One of the greatest challenges for startup teams is scaling because usually there's not a blueprint to follow, people are learning their function as they go, and everyone is wearing multiple hats. There can be lots of trial and error, lots of missteps, and lots of valuable time and money squandered as companies scale. Matt Blumberg and his team understand the scaling challenges—they've been there, and it took them nearly 20 years to scale and achieve a successful exit. Along the way they learned what worked and what didn't work, and they share their lessons learned in Startup CXO. Unlike other business books, Startup CXO is designed to help each functional leader understand how their function scales, what to anticipate as they scale, and what things to avoid. Beyond providing function-specific advice, tools, and tactics, Startup CXO is a resource for each team member to learn about the other functions, understand other functional challenges, and get greater clarity on how to collaborate effectively with the other functional leads. CEOs, Board members, and investors have a book they can consult to pinpoint areas of weakness and learn how to turn those into strengths. Startup CXO has in-depth chapters covering the nine most common functions in startups: finance, people, marketing, sales, customers, business development, product, operations, and privacy. Each functional section has a CEO to CEO Advice summary from Blumberg on what great looks like for that CXO, signs your CXO isn't scaling, and how to engage with your CXO. Startup CXO also has a section on the future of executive work, fractional and interim roles. Written by leading practitioners in the newly emergent fractional executive world, each function is covered with useful tips on how to be a successful fractional executive as well as what to look for and how to manage fractional executives. Startup CXO is an amazing resource for CEOs but also for functional leaders and professionals at any stage of their career. —Scott Dorsey, Managing Partner, High Alpha

amazon internship interview process: A Companion to Australian Cinema Felicity Collins, Jane Landman, Susan Bye, 2019-04-15 The first comprehensive volume of original essays on Australian screen culture in the twenty-first century. A Companion to Australian Cinema is an anthology of original essays by new and established authors on the contemporary state and future directions of a well-established national cinema. A timely intervention that challenges and expands the idea of cinema, this book brings into sharp focus those facets of Australian cinema that have endured, evolved and emerged in the twenty-first century. The essays address six thematically-organized propositions – that Australian cinema is an Indigenous screen culture, an international cinema, a minor transnational imaginary, an enduring auteur-genre-landscape tradition, a televisual industry and a multiplatform ecology. Offering fresh critical perspectives and extending previous scholarship, case studies range from The Lego Movie, Mad Max, and Australian stars in Hollywood, to transnational co-productions, YouTube channels, transmedia and nature-cam documentaries. New research on trends – such as the convergence of television and film, digital transformations of screen production and the shifting roles of women on and off-screen – highlight how established precedents have been influenced by new realities beyond both cinema and the national. Written in an accessible style that does not require knowledge of cinema studies or Australian studies Presents original research on Australian actors, such as Cate Blanchett and Chris Hemsworth, their training, branding, and path from Australia to Hollywood Explores the films and filmmakers of the Blak Wave and their challenge to Australian settler-colonial history and white identity Expands the critical definition of cinema to include YouTube channels, transmedia documentaries, multiplatform changescapes and cinematic remix Introduces readers to founding texts in Australian screen studies A Companion to Australian Cinema is an ideal introductory text for teachers and students in areas including film and media studies, cultural and gender studies, and Australian history and politics, as well as a valuable resource for educators and other professionals in the humanities and creative arts.
