american car center out of business: Strong Towns Charles L. Marohn, Jr., 2019-10-01 A new way forward for sustainable quality of life in cities of all sizes Strong Towns: A Bottom-Up Revolution to Build American Prosperity is a book of forward-thinking ideas that breaks with modern wisdom to present a new vision of urban development in the United States. Presenting the foundational ideas of the Strong Towns movement he co-founded, Charles Marohn explains why cities of all sizes continue to struggle to meet their basic needs, and reveals the new paradigm that can solve this longstanding problem. Inside, you'll learn why inducing growth and development has been the conventional response to urban financial struggles—and why it just doesn't work. New development and high-risk investing don't generate enough wealth to support itself, and cities continue to struggle. Read this book to find out how cities large and small can focus on bottom-up investments to minimize risk and maximize their ability to strengthen the community financially and improve citizens' quality of life. Develop in-depth knowledge of the underlying logic behind the "traditional" search for never-ending urban growth Learn practical solutions for ameliorating financial struggles through low-risk investment and a grassroots focus Gain insights and tools that can stop the vicious cycle of budget shortfalls and unexpected downturns Become a part of the Strong Towns revolution by shifting the focus away from top-down growth toward rebuilding American prosperity Strong Towns acknowledges that there is a problem with the American approach to growth and shows community leaders a new way forward. The Strong Towns response is a revolution in how we assemble the places we live.

american car center out of business: Car Guys vs. Bean Counters Bob Lutz, 2011-06-09 A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith

in analysis, determined to eliminate the waste and personality worship of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.

american car center out of business: **Shelby American 60 Years of High Performance**
Colin Comer, Richard J. Kopec, 2023-01-03 Six Decades of Shelby performance—from the first Shelby AC Cobra to today's Mustang Shelby GT500! A bad heart forced Carroll Shelby, one of the top racing drivers of all time, to retire in 1960. But that didn't stop the lanky Texan from continuing to make history. He launched Shelby American in 1962 with the creation of the brilliant Ford-powered AC Cobra, soon to dominate both U.S. and international sports car racing. Shelby's winning ways soon led to Ford seeking Shelby's team of "hot rodders" help to make the Ford GT program a success. It worked. Shelby and Ford soon stunned the motorsports world by winning Le Mans and dominating other venues from 1966 to 1969 with the GT40. Fifty-three years later the legendary first Le Mans win of 1966 would form the basis for the acclaimed film Ford Versus Ferrari. As if the Cobra, Daytona Coupe, and GT40 were not enough, this small team of hot rodders, fabricators, and race mechanics also created the Shelby Mustang GT350 in 1965, and the GT500 two years later. Shelby American was nothing short of lightning in a bottle from 1962-1970. Shelby American 60 Years of High Performance covers all of these early triumphs, following the proceedings from a small shop in Venice, California, to sprawling digs at LAX all the while developing new road cars, running a top race team, and giving privateer racers the cars they needed to win. Get to know Shelby, as well as the innovators who surrounded him, including designer Peter Brock, genius engineer Phil Remington, "Mr. GT350" Chuck Cantwell, and a roster of top drivers that included Ken Miles, Bob Bondurant, Dan Gurney, Bruce McLaren, Denny Hulme, A.J. Foyt, Mario Andretti, and more. Authors Colin Comer and Rick Kopec, leading Shelby historians, follow the Shelby story through Carroll's post-Ford relationship with Dodge, including his roles in the giant-killing, pocket-rocket Shelby Charger, GLH ("Goes Like Hell"), and GLH-S cars along with a slew of other Shelby-ized machines including his role in the birth and development of the menacing Dodge Viper. The story of the late Carroll Shelby and the company he founded is a classic tale of ingenuity, grit, and perseverance. Illustrated throughout with rare period imagery and modern color photography, Shelby American 60 Years of High Performance is the ultimate tribute to Shelby American and the team that made it all happen.
