american cancer society rundisney: John Lasseter Richard Neupert, 2016-05-15 Celebrated as Pixar's Chief Creative Officer, John Lasseter is a revolutionary figure in animation history and one of today's most important filmmakers. Lasseter films from Luxo Jr. to Toy Story and Cars 2 highlighted his gift for creating emotionally engaging characters. At the same time, they helped launch computer animation as a viable commercial medium and serve as blueprints for the genre's still-expanding commercial and artistic development. Richard Neupert explores Lasseter's signature aesthetic and storytelling strategies and details how he became the architect of Pixar's studio style. Neupert contends that Lasseter's accomplishments emerged from a unique blend of technical skill and artistic vision, as well as a passion for working with collaborators. In addition, Neupert traces the director's career arc from the time Lasseter joined Pixar in 1984. As Neupert shows, Lasseter's ability to keep a foot in both animation and CGI allowed him to thrive in an unconventional corporate culture that valued creative interaction between colleagues. The ideas that emerged built an animation studio that updated and refined classical Hollywood storytelling practices--and changed commercial animation forever.

american cancer society rundisney: The Miles and Trials of a Marathon Goddess Julie Weiss, John Hanc, Ali Nolan, 2019-02-11 Growing up in Santa Monica, California, Julie Weiss would do almost anything for love. She drank, she quit school, she stole--and she ended up a mother in her teens. Years later, overweight and depressed, she put one foot in front of another and found a new road beckoning. Running gave her the answers she was looking for. Julie's loving, larger-than-life father, her biggest critic during her wayward years, became her biggest fan as his now-fit and healthy daughter began to run marathons. When he died suddenly of pancreatic cancer, she decided to turn her new pursuit into a purpose and, in his memory, embarked on an incredible endeavor to raise money and hope in the fight against pancreatic cancer. In 2012-13, Julie-a/k/a, the Marathon Goddess--ran 52 marathons in 52 weeks. Along the way she was featured in a major documentary film, Spirit of the Marathon II, appeared on national television and attracted a passionate social media following, as she logged the miles of each of her 52 marathons in honor of individuals lost to or fighting pancreatic cancer, ultimately raising over a half million dollars for the cause. It's a story of resilience, perseverance, endurance--and romance: Julie's turbulent early life; the rekindling of a father's love extinguished too soon; her epic year travelling to far-flung races and places; not to mention her relationship with coach David Levine. After a rocky road, their underlying love emerged, culminating with a finish line marriage proposal. It all adds up to make The Miles and Trials of a Marathon Goddess a riveting, humorous, poignant and ultimately uplifting book, for runners and non-runners alike.

A proven plan to optimize your health by reclaiming your natural ability to burn body fat for fuel The ability to use body fat for energy is essential to health—but over decades of practice, renowned family physician Catherine Shanahan, M.D., observed that many of her patients could not burn their body fat between meals, trapping them in a downward spiral of hunger, fatigue, and weight gain. In *The Fatburn Fix*, Dr. Shanahan shows us how industrially produced vegetable oils accumulate in our body fat and disrupt our body's energy-producing systems, driving food addictions that hijack our moods and habits while making it nearly impossible to control our weight. To reclaim our health, we need to detoxify our body fat and help repair our "fatburn" capabilities. Dr. Shanahan shares five important rules to fix your fatburn: 1) Eat natural fats, not vegetable oils. 2) Eat slow-digesting carbs, not starchy carbs or sweets. 3) Seek salt. 4) Drink plenty of water. 5) Supplement with vitamins and minerals. She then provides a revolutionary, step-by-step plan to help reboot your fatburn potential in as little as two weeks. This customizable two-phase plan is widely accessible, easy to follow, and will appeal to the full spectrum of diet ideologies, from plant-based to carnivore to keto and beyond. By making a few changes to what you eat and when, you will lose unwanted weight and restore your body's ability to store and release energy. With *The Fatburn Fix*, Dr. Shanahan shows how regaining your fatburn is the key to effortless weight loss and a new, elevated life, paving the way to abundant energy and long-term health and happiness.

american cancer society rundisney: Convergence Culture Henry Jenkins, 2008-09 "What the future fortunes of [Gramsci's] writings will be, we cannot know. However, his permanence is already sufficiently sure, and justifies the historical study of his international reception. The present collection of studies is an indispensable foundation for this." —Eric Hobsbawm, from the preface Antonio Gramsci is a giant of Marxian thought and one of the world's greatest cultural critics. Antonio A. Santucci is perhaps the world's preeminent Gramsci scholar. Monthly Review Press is proud to publish, for the first time in English, Santucci's masterful intellectual biography of the great Sardinian scholar and revolutionary. Gramscian terms such as "civil society" and "hegemony"

are much used in everyday political discourse. Santucci warns us, however, that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci's purposes in developing them. Rather what we must do, and what Santucci illustrates time and again in his dissection of Gramsci's writings, is absorb Gramsci's methods. These can be summed up as the suspicion of "grand explanatory schemes," the unity of theory and practice, and a focus on the details of everyday life. With respect to the last of these, Joseph Buttigieg says in his *Nota*: "Gramsci did not set out to explain historical reality armed with some full-fledged concept, such as hegemony; rather, he examined the minutiae of concrete social, economic, cultural, and political relations as they are lived in by individuals in their specific historical circumstances and, gradually, he acquired an increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society." The rigor of Santucci's examination of Gramsci's life and work matches that of the seminal thought of the master himself. Readers will be enlightened and inspired by every page.

american cancer society rundisney: *Public Relations and Community* Dean Kruckeberg, Kenneth Starck, 1988-05-23 This slim volume hits hard at one major point: public relations practitioners need to abandon their dominant attitude of narrowly serving the needs of their clients and instead attempt to engender a broad-based sense of community. By approaching public relations from this broader perspective both the needs of the client and the community are served. Implicit in this theory is that a closer-knit community will retain more traditional family-based values and therefore comprise a more stable and appreciative economic unit for one's client. *Canadian Journal of Communication* Public relations is commonly viewed as using persuasive communications to achieve a client's vested goal. Kruckeberg and Starck challenge this oversimplified approach, asserting that public relations is a complex, multi-flow process that should--and can--affect society as a whole. In Part I, they examine critically the historical definition and practice of public relations, outlining the shortcomings of this narrow approach. Part II explores how the community itself has changed. Such issues as the shift from rural to urban life and the attempt to regain a sense of community are discussed. Part III attempts to reconcile the authors' new notion of public relations and community through an in-depth case-study. The results lead the authors to conclude that only if public relations is practiced as an active attempt to build a sense of community can it become a full partner in the communications milieu.

meaning-making of capitalist society. In understanding the production and consumption of such texts, the book outlines theoretical discussion from the Frankfurt School, British Cultural Studies, Semiotics, Subcultural theory, and Postmodernism, as well as investigating special topics such as digital media, sport, advertising, social networking sites, celebrity, video games, the body, cinema, reality TV, and issues of gender and ethnicity.
