**animal humane society golden valley photos: The First Forty Days** Heng Ou, Amely Greeven, Marisa Belger, 2016-04-26 After labor, it's time for rest: A gentle guide to zuo yuezi, the ancient Chinese practice of postpartum self-care, including sixty simple recipes. The first forty days after the birth of a child offer an essential and fleeting period of rest and recovery for the new mother. Based on Heng Ou's own postpartum experience with zuo yuezi, a set period of "confinement" in which a woman remains at home focusing on healing and bonding with her baby, The First Forty Days revives the lost art of caring for the mother after birth. This book includes sixty simple recipes for healing soups, replenishing meals and snacks, and calming and lactation-boosting teas, all formulated to support the unique needs of the new mother. In addition to recipes, this warm and encouraging guide offers advice on arranging a system of help during the postpartum period, navigating relationship challenges, and honoring the significance of pregnancy and birth. Fully illustrated, it is a practical guide and inspirational read for all new mothers and mothers-to-be—the perfect ally during the first weeks with a new baby. **animal humane society golden valley photos: A Rat Is a Pig Is a Dog Is a Boy** Wesley Smith, 2012-07-17 Over the past thirty years, as Wesley J. Smith details in his latest book, the concept of animal rights has been seeping into the very bone marrow of Western culture. One reason for this development is that the term “animal rights” is so often used very loosely, to mean simply being nicer to animals. But although animal rights groups do sometimes focus their activism on promoting animal welfare, the larger movement they represent is actually advancing a radical belief system. For some activists, the animal rights ideology amounts to a quasi religion, one whose central doctrine declares a moral equivalency between the value of animal lives and the value of human lives. Animal rights ideologues embrace their beliefs with a fervor that is remarkably intense and sustained, to the point that many dedicate their entire lives to “speaking for those who cannot speak for themselves.” Some believe their cause to be so righteous that it entitles them to cross the line from legitimate advocacy to vandalism and harassment, or even terrorism against medical researchers, the fur and food industries, and others they accuse of abusing animals. All people who love animals and recognize their intrinsic worth can agree with Wesley J. Smith that human beings owe animals respect, kindness, and humane care. But Smith argues eloquently that our obligation to humanity matters more, and that granting “rights” to animals would inevitably diminish human dignity. In making this case with reason and passion, *A Rat Is a Pig Is a Dog Is a Boy* strikes a major blow against a radically antihuman dogma.

**animal humane society golden valley photos: Dogtripping** David Rosenfelt, 2013-07-23 David Rosenfelt's *Dogtripping* is moving and funny account of a cross-country move from California to Maine, and the beginnings of a dog rescue foundation. When mystery writer David Rosenfelt and his family moved from Southern California to Maine, he thought he had prepared for everything. They had mapped the route, brought three GPSs for backup, as well as refrigerators full of food, and stoves and microwaves on which to cook them. But traveling with twenty-five dogs turned out to be a bigger ordeal than he anticipated, despite the RVs, the extra kibble, volunteers (including a few readers), and camping equipment. Rosenfelt recounts the adventure of moving his animal companions across the United States with humor and warmth, and tells the tale of how he and his wife became passionate foster parents for rescue dogs, culminating in the creation of the Tara Foundation and successfully placing several thousand dogs with loving families. **animal humane society golden valley photos:** Animal Liberation Peter Singer, 2015-10-01 How should we treat non-human animals? In this immensely powerful and influential book (now with a new introduction by Sapiens author Yuval Noah Harari), the renowned moral philosopher Peter Singer addresses this simple question with trenchant, dispassionate reasoning. Accompanied by the disturbing evidence of factory farms and laboratories, his answers triggered the birth of the animal rights movement. 'An extraordinary book which has had extraordinary effects... Widely known as the bible of the animal liberation movement' Independent on Sunday In the decades since this landmark classic first appeared, some public attitudes to animals may have changed but our continued abuse of animals in factory farms and as tools for research shows that the underlying ideas Singer exposes as ethically indefensible are still dominating the way we treat animals. As Yuval Harari’s brilliantly argued introduction makes clear, this book is as relevant now as the day it was written.

**animal humane society golden valley photos: The Other End of the Leash** Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

**animal humane society golden valley photos: Lions and Tigers and Hamsters** Mark Goldstein, 2019-05-07 From the time Dr. Mark Goldstein was a little boy—even before he had his first dog—he was fascinated by creatures both domestic and wild. After graduating veterinary school at Cornell University, he became a veterinarian in clinical practice, then director of zoos in Boston and Los Angeles, then head of a progressive humane society where he advocated for animal welfare. During his extraordinary 30-year career, Dr. Mark has accrued a lifetime of experiences working with all sorts of animals and the people who care for them. Dr. Mark's life with animals taught him more than how to be a great doctor, it taught him how to live life. The stories in this book reflect those lessons; they will make you laugh and cry as they entertain and amaze you. Each real-life experience sheds light on the challenges and hard work of the talented individuals who work in the world of animal welfare. These are stories that illustrate the tremendous impact animals have on our daily lives—they are hallmarks of the sacred importance of the human-animal bond. On your journey through the exhilarating life of Dr. Mark, you'll meet some of the finned, furred, and feathered animals who offered him invaluable insights—Harold the hamster, Sasha the Siberian tiger, St. Francis the German Shepherd, Ralph the buffalo, Gus the stallion, Frank the goldfish, and many more fascinating creatures!

**animal humane society golden valley photos: Go, Goats!** Kama Einhorn, 2019 Photo-packed series explores the stories and science behind animal sanctuaries. An up-close look at what life is like at a farm sanctuary in upstate New York, straight from a goat herself, in a nonfiction chapter book for elementary-aged readers. Includes full-color photos, graphics, and maps. It's summertime in Upstate New York and the Camp Kindness volunteers have arrived at Catskills Animal Sanctuary. Start with the eyes!). Lucia is a member of what the farm staff calls the Underfoot Family. It's a group of more than fifty animals - goat, sheep, chickens, ducks, and even a pig - who have free reign of the farm. While the staff works hard to rescue, recover, rehabilitate and release all of the farm animals who come to the sanctuary, not every animal will leave -- Lucia is one who will spend the rest of her days in the comfort of the sanctuary, watching babies be born, new friends come and go, and welcoming a new group of campers every summer with a warm heart and a gentle head butt. What is life like at Catskills Animal Sanctuary? Lucia will tell you everything...!

**animal humane society golden valley photos: *Animalkind*** Ingrid Newkirk, Gene Stone, 2021-01-19 The founder and president of PETA, Ingrid Newkirk, and bestselling author Gene Stone explore the wonders of animal life with “admiration and empathy” (The New York Times Book Review) and offer tools for living more kindly toward them. In the last few decades, a wealth of new information has emerged about who animals are: astounding beings with intelligence, emotions, intricate communications networks, and myriad abilities. In *Animalkind*, Ingrid Newkirk and Gene Stone present these findings in a concise and awe-inspiring way, detailing a range of surprising discoveries, like that geese fall in love and stay with a partner for life, that fish “sing” underwater, and that elephants use their trunks to send subsonic signals, alerting other herds to danger miles away. Newkirk and Stone pair their tour through the astounding lives of animals with a guide to the exciting new tools that allow humans to avoid using or abusing animals as we once did. Whether it’s medicine, product testing, entertainment, clothing, or food, there are now better options to all the uses animals once served in human life. We can substitute warmer, lighter faux fleece for wool, choose vegan versions of everything from shrimp to marshmallows, reap the benefits of animal-free medical research, and scrap captive orca exhibits and elephant rides for virtual reality and animatronics. *Animalkind* provides a fascinating look at why our fellow living beings deserve our respect, and lays out the steps everyone can take to put this new understanding into action.

**animal humane society golden valley photos: *Pit Bull Flower Power*** Sophie Gamand, 2018 For decades, pit bulls have been demonized by society and portrayed as hellhounds. They've become the most feared, hated, and abused of all companion animals. Some cities and even entire countries ban them, while the media persist in associating them with viciousness. This unjust reputation has sealed the fate of millions of dogs, who face prejudice around the world and languish in shelters, where they are the most euthanized. In America alone, hundreds of thousands of pit bulls are put to sleep every year. Since 2014, French photographer Sophie Gamand has been composing portraits of adoptable pit bulls from more than thirty shelters and rescues throughout the United States. Many had been waiting for years for a home. Adorning her models with handmade flower-crowns, Gamand tells each dog's story and celebrates their inherent personality, vulnerability, and individuality. Posted and shared widely on social media, the portraits--at once charming, candid, and deeply affecting--have not only led to hundreds of dogs finding loving, forever homes, but have also spurred efforts to destigmatize an animal whose reputation for violence says more about us than it does the character of the dogs themselves. Full of moving, honest, and inspiring stories of individual dogs and their lives (and deaths), *Pit Bull Flower Power* presents a vivid, beautifully composed cross-section of Gamand's extraordinary work. The book also serves as a testament to the caring people who work in animal rescue, the passion and dedication of those who provide homes for these animals, and the dignity, forbearance, and love of these dogs, who are at the mercy of humans.

**animal humane society golden valley photos: *Animal Machines*** Ruth Harrison, 2013 First published in 1964, Ruth Harrison's book *Animal Machines* had a profound and lasting impact on world agriculture, public opinion and the quality of life of millions of farmed animals. Concerned with welfare standards at a time when animal production was increasing in scale and mechanization, Ruth Harrison set about investigating the situation in a fair and even-handed way. Reporting her findings in this book, Harrison alerted the public to the undeniable suffering of calves living in veal crates and birds in battery cages. Written at the beginning of the intensive farming movement, which promised progress but in reality worsened conditions for domesticated animals, *Animal Machines* provides a fascinating insight into the system we are living with today and must continue with as the global population increases. Harrison's work brought about legal reforms, a greater

understanding of farm conditions for animals and increased public awareness. Animal Machines is reprinted here in its entirety, accompanied by new chapters by world-renowned experts in animal welfare discussing the legacy and impact of Animal Machines 50 years on.

He began photographing dogs on the street, and posting them on his blog, The Dogist. **animal humane society golden valley photos: The Connection Between Animal Abuse and Human Violence** Harold Hovel, 2019-09-30 Animal cruelty is linked directly or indirectly with every type of violent crime, and, what is not as well known, also with most nonviolent crime. Human beings would benefit enormously if fighting animal cruelty (investigating, prosecuting) were taken seriously. Many human lives would be saved and much human suffering would be prevented. Violent individuals are made and not born. Children are born with a love of animals, but the home environment plays a major role in determining a child's prosocial or antisocial personality and behavior. Child abuse, neglect, abandonment, and witnessing domestic violence are major factors in creating violent individuals, along with poverty, alcoholism, and toxic neighborhoods.
