angel oak tree history: One Acorn's Journey Rhonda S. Edwards, 2021-08-11 Turbulent winds from an approaching tropical storm snatch an acorn from the safety of an oak tree and deposit it on the shore during the night. The acorn risks being washed away into the ocean or being eaten by a seagull before it's rescued by Hatokwasssi, a Kiawah Indian. She tucks the acorn safely away in her pouch, carries it back to her village, and lovingly plants it in her garden. Hatokwasssi imagines it as a gift for her village, praying for the branches to shade the garden, the boughs to provide a playground for the children, and the seeds to offer food for the squirrels. A picture book for children, *One Acorn's Journey* narrates the story of the Angel Oak, the oldest living oak tree in the United States located in Charleston, South Carolina.

angel oak tree history: Every Root an Anchor R. Bruce Allison, 2014-05-20 In *Every Root an Anchor*, writer and arborist R. Bruce Allison celebrates Wisconsin's most significant, unusual, and historic trees. More than one hundred tales introduce us to trees across the state, some remarkable for their size or age, others for their intriguing histories. From magnificent elms to beloved pines to Frank Lloyd Wright's oaks, these trees are woven into our history, contributing to our sense of place. They are anchors for time-honored customs, manifestations of our ideals, and reminders of our lives' most significant events. For this updated edition, Allison revisits the trees' histories and tells us which of these unique landmarks are still standing. He sets forth an environmental message as well, reminding us to recognize our connectedness to trees and to manage our tree resources wisely. As early Wisconsin conservationist Increase Lapham said, Tree histories increase our love of home and improve our hearts. They deserve to be told and remembered.

angel oak tree history: The Old Oak Tree's Last Dream Hans Christian Andersen, 2020-03-12 On the top of a cliff overlooking the sea was an oak tree that was 365 years old. It was an unimaginable age for the mayflies, tiny creatures who lived only one day. The oak only slept during the winter. The rest of the year, he remained alert. That year, like every year, he began to lose his leaves in autumn. He knew that he was about to go to sleep for the last time! Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include *The Emperor's New Clothes*, *The Little Mermaid*, *The Nightingale*, *The Steadfast Tin Soldier*, *The Snow Queen*, *The Ugly Duckling* and *The Little Match Girl*. His books have been translated into every living language, and today there is no child or adult that has not met

Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films *The Little Mermaid* in 1989 and *Frozen*, which is loosely based on *The Snow Queen*, in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

angel oak tree history: The Angel Oak Story Ruth M. Miller, Linda V. Lennon, 2018-11-05
Angel Oak is estimated to be more than 400 years old. The story of the live oak begins with the purchase of Johns Island from the Cussoe Indians by a representative of Sir Anthony Ashley Cooper in 1675. The land upon which the tree grows was then granted to Abraham Waight in 1717. The oak garnered its name when descendant Martha Waight married Justus Angel. This same family maintained ownership of the property for 242 years. Today, the Angel Oak is owned by the City of Charleston. Authors Ruth M. Miller and Linda Lennon describe life on Johns Island through 300 years and the special place the tree has held in the hearts of Lowcountry residents. A foreword was provided by Becky Woods, communications manager for the Lowcountry Land Trust.

Mike Sullivan loves his adopted city of San Francisco, and he loves trees. In *The Trees of San Francisco* he has combined his passions, offering a striking and handy compendium of botanical information, historical tidbits, cultivation hints, and more. Sullivan's introduction details the history of trees in the city, a fairly recent phenomenon. The text then piques the reader's interest with discussions of 71 city trees. Each tree is illustrated with a photograph--with its common and scientific names prominently displayed--and its specific location within San Francisco, along with other sites; frequently a close-up shot of the tree is included. Sprinkled throughout are 13 sidelights relating to trees; among the topics are the city's wild parrots and the trees they love; an overview of the objectives of the Friends of the Urban Forest; and discussions about the link between Australia's trees and those in the city, such as the eucalyptus. The second part of the book gets the reader up and about, walking the city to see its trees. Full-page color maps accompany the seven detailed tours, outlining the routes; interesting factoids are interspersed throughout the directions. A two-page color map of San Francisco then highlights 25 selected neighborhoods ideal for viewing trees, leading into a checklist of the neighborhoods and their trees.

angel oak tree history: *William Still* William C. Kashatus, 2021-04-01 The first full-length biography of William Still, one of the most important leaders of the Underground Railroad. William Still: The Underground Railroad and the Angel at Philadelphia is the first major biography of the free Black abolitionist William Still, who coordinated the Eastern Line of the Underground Railroad and was a pillar of the Railroad as a whole. Based in Philadelphia, Still built a reputation as a courageous leader, writer, philanthropist, and guide for fugitive enslaved people. This monumental work details Still's life story beginning with his parents' escape from bondage in the early nineteenth century and continuing through his youth and adulthood as one of the nation's most important Underground Railroad agents and, later, as an early civil rights pioneer. Still worked personally with Harriet Tubman, assisted the family of John Brown, helped Brown's associates escape from Harper's Ferry

after their famous raid, and was a rival to Frederick Douglass among nationally prominent African American abolitionists. Still's life story is told in the broader context of the anti-slavery movement, Philadelphia Quaker and free black history, and the generational conflict that occurred between Still and a younger group of free black activists led by Octavius Catto. Unique to this book is an accessible and detailed database of the 995 fugitives Still helped escape from the South to the North and Canada between 1853 and 1861. The database contains twenty different fields—including name, age, gender, skin color, date of escape, place of origin, mode of transportation, and literacy—and serves as a valuable aid for scholars by offering the opportunity to find new information, and therefore a new perspective, on runaway enslaved people who escaped on the Eastern Line of the Underground Railroad. Based on Still's own writings and a multivariate statistical analysis of the database of the runaways he assisted on their escape to freedom, the book challenges previously accepted interpretations of the Underground Railroad. The audience for William Still is a diverse one, including scholars and general readers interested in the history of the anti-slavery movement and the operation of the Underground Railroad, as well as genealogists tracing African American ancestors.

angel oak tree history: *The Angel of Darkness* Caleb Carr, 2011 A year after the events narrated in *The Alienist*, the cast of characters from that novel are again brought together to investigate a crime committed in the heady days of New York in the 1890s, but this time narrated by the orphan Stevie Taggart. A young child, the daughter of Spanish diplomats, disappears. It seems she has been abducted but no ransom note is received and the detectives Isaacson quickly discover that a nurse, Elspeth Hunter, is probably the kidnapper. They also discover that Hunter has been a little too closely connected with the death of three other infants. But what are her motives? She married a fortune, and although she is connected to some fairly rough villains this crime does not fit their modus operandi. Is it something as 'simple' as psychological disturbance due to her own inability to bear children, or something more sinister unguessed at?

angel oak tree history: *Ancient Trees* Beth Moon, 2014-09-09 Captivating black-and-white photographs of the world's most majestic ancient trees. Beth Moon's fourteen-year quest to photograph ancient trees has taken her across the United States, Europe, Asia, the Middle East, and Africa. Some of her subjects grow in isolation, on remote mountainsides, private estates, or nature preserves; others maintain a proud, though often precarious, existence in the midst of civilization. All, however, share a mysterious beauty perfected by age and the power to connect us to a sense of time and nature much greater than ourselves. It is this beauty, and this power, that Moon captures in her remarkable photographs. This handsome volume presents nearly seventy of Moon's finest tree portraits as full-page duotone plates. The pictured trees include the tangled, hollow-trunked yews—some more than a thousand years old—that grow in English churchyards; the baobabs of Madagascar, called "upside-down trees" because of the curious disproportion of their giant trunks and modest branches; and the fantastical dragon's-blood trees, red-sapped and umbrella-shaped, that grow only on the island of Socotra, off the Horn of Africa. Moon's narrative captions describe the natural and cultural history of each individual tree, while Todd Forrest, vice president for horticulture and living collections at The New York Botanical Garden, provides a concise introduction to the biology and preservation of ancient trees. An essay by the critic Steven Brown defines Moon's unique place in a tradition of tree photography extending from William Henry Fox Talbot to Sally Mann, and explores the challenges and potential of the tree as a subject for art.

angel oak tree history: *The Bluffton Expedition* Jeff Fulgham, 2018-06-03 JUNE 4, 1863... As the sun began to set below the horizon across the May River estuary, smoke clouds still billowed from the burning homes and buildings of the town; when it rose on the morning of June 5, it was evident that Bluffton's antebellum way of life had vanished forever. Perhaps in an omen of what was to come for the South, the burning of Bluffton, South Carolina, in 1863 was a prelude to the farewell of the Southern plantation era and of the institution of slavery. In the years leading up to the Civil War, Bluffton had gained national prominence as a hotbed of secessionist activity. The Bluffton Movement was sparked during a fiery political gathering held under a sprawling and magnificent live oak now referred to as the Secession Oak. The movement generated a dangerous whirlwind of political rhetoric that only war and devastation would silence.

angel oak tree history: *Dorothea Lange: Words and Pictures* Sarah Meister, 2020-01-02 Towards the end of her life, Dorothea Lange (American, 1895-1965) remarked that all photographs-not only those that are so-called 'documentary,' and every photograph really is documentary and belongs in some place, has a place in history-can be fortified by words. Though Lange's career is widely heralded, this connection between words and pictures has received scant attention. Published in conjunction with an exhibition at The Museum of Modern Art, this catalogue provides a fresh approach to some of her best-known and beloved photographs, highlighting the ways in which these images first circulated in magazines, government reports, books, etc. An introductory text by curator Sarah Hermanson Meister will be followed by plates organized according to words from a variety of sources that expand our understanding of the photographs. The featured photographs will range from Lange's first engagement with documentary photography in San Francisco in the early-mid 1930s, including her iconic White Angel Breadline (1933), to landmark photographs she made for the Resettlement Administration (later the Farm Security Administration) such as Migrant Mother (1936), powerful photographs made during World War II in California's internment camps for Japanese-Americans, major photo-essays published in Life magazine on Mormon communities in Utah (in 1954) and County Clare, Ireland (in 1955), and quietly damning photographs made in the Berryessa Valley in 1956-57, before the region was flooded by the construction of a dam intended to address California's chronic water shortages.
