Agents began leaving the business in 2008 due to the so-called market downturn. Why? They had NOT CHANGED their marketing as the consumers changed their behavior. The few agents who had at least some internet presence continued to get leads and business. Those that had always relied upon print advertising saw that their business was going down so what did they do? Spent MORE money on ads. It took me about 9 months of researching, writing, and experimenting and I developed two 3 hour training classes on How to Use Free Internet Tools to Generate Traffic and Leads. I even sent the two classes to our State Real Estate Commission and they were APPROVED as CE classes (imagine a course on how to make more money being approved!). I started offering them as CE classes - and guess what happened? The Agents That took the classes and USED the techniques began to get ONLINE leads and Business. The local Board Scheduled a full day for me to teach these 2 classes on March 4th, 2009. The Course Sold out a FULL WEEK before it was scheduled to take place That had NEVER happened before I called a professional film production crew and scheduled for them to be there. It was a tense and exciting day - and the agents that attended absolutely gobbled up the information. And That's how the Real Estate Rocket Fuel Training Course was born

**april real estate marketing ideas: Grit** Angela Duckworth, 2016-05-03 In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book

Review). Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).
