april 15 events in history: Baseball's Dead of World War II Gary Bedingfield, 2015-01-27

While most fans know that baseball stars Ted Williams, Hank Greenberg, and Bob Feller served in the military during World War II, few can name the two major leaguers who died in action. (They were catcher Harry O'Neill and outfielder Elmer Gedeon.) Far fewer still are aware that another 125 minor league players also lost their lives during the war. This book draws on extensive research and interviews to bring their personal lives, baseball careers, and wartime service to light.

april 15 events in history: Lincoln's Words Abraham Lincoln, 2001 Our 16th president is best remembered for his leadership in preserving the Union during the Civil War and initiating the legislation that ended slavery in the United States. Abraham Lincoln is also remembered as a man of humble beginnings, who through determination and perseverance was elected to the highest political position in the United States. A humane, farsighted statesman in his lifetime, he became an American hero after his death. Lincoln has had a lasting influence on American politics, and his character, integrity, and intellect are best revealed in his speeches and letters. Book jacket.

april 15 events in history: History, Disrupted Jason Steinhauer, 2021-12-07 The Internet has changed the past. Social media, Wikipedia, mobile networks, and the viral and visual nature of the Web have inundated the public sphere with historical information and misinformation, changing what we know about our history and History as a discipline. This is the first book to chronicle how and why it matters. Why does History matter at all? What role do history and the past play in our democracy? Our economy? Our understanding of ourselves? How do questions of history intersect with today's most pressing debates about technology; the role of the media; journalism; tribalism; education; identity politics; the future of government, civilization, and the planet? At the start of a new decade, in the midst of growing political division around the world, this information is critical to an engaged citizenry. As we collectively grapple with the effects of technology and its capacity to destabilize our societies, scholars, educators and the general public should be aware of how the Web and social media shape what we know about ourselves - and crucially, about our past.

april 15 events in history: Mortal Republic Edward J. Watts, 2018-11-06 Learn why the Roman Republic collapsed -- and how it could have continued to thrive -- with this insightful history from an award-winning author. In *Mortal Republic*, prize-winning historian Edward J. Watts offers a new history of the fall of the Roman Republic that explains why Rome exchanged freedom for autocracy. For centuries, even as Rome grew into the Mediterranean's premier military and political power, its governing institutions, parliamentary rules, and political customs successfully fostered negotiation and compromise. By the 130s BC, however, Rome's leaders increasingly used these same tools to cynically pursue individual gain and obstruct their opponents. As the center decayed and dysfunction grew, arguments between politicians gave way to political violence in the streets. The stage was set for destructive civil wars -- and ultimately the imperial reign of Augustus. The death of Rome's Republic was not inevitable. In *Mortal Republic*, Watts shows it died because it was allowed to, from thousands of small wounds inflicted by Romans who assumed that it would last forever.

(Brooklyn campus) conference joined with President Clinton in celebrating Jackie Robinson's pitching of one of the nation's defining moments in 1947 when he broke major league baseball's color barrier. Their

selected papers and Roger Rosenblatt's keynote address place this ode to Robinson in several contexts: historical, fans' remembrances, the radical press/agenda, on the [level?] playing field, and measuring the impact on baseball and society. Annotation copyrighted by Book News, Inc., Portland, OR

april 15 events in history: The History of al-Ṭabarī Vol. 18 , 2015-06-17 This volume presents for the first time in English Ṭabarī's complete account of the twenty-year long reign of the fifth caliph, Mu'āwiyah (661-680). The importance of this account lies partly in Ṭabarī's quotation of major portions of the work of earlier authors, such as Abu Mikhnaḥ and other eighth-century compilers. It is also significant because Ṭabarī's selection of themes has had a decisive influence on modern interpretations of this period, particularly on the identification of what the important issues were in the works of Henri Lammens and Julius Wellhausen. Here one can read the exciting account of the Khārijī revolt of Mustawrid ibn Ullifah, the impressive but controversial record of the governorship of Ziyād ibn Abīhi, the entertaining escapades of the poet Farazdaq in his youth, and the tragic story of Ḥujr ibn 'Adī. Ṭabarī's presentation of different points of view about these and other events makes his account an indispensable source for early Islamic history.

april 15 events in history: The Pig Book Citizens Against Government Waste, 2013-09-17 The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, The Pig Book proves one thing about Capitol Hill: pork is king!

april 15 events in history: EDISON MOTION PICTURES MUSSEY CHARLES, 1997 This book provides essential documentation of all known Edison films made between 1890 and 1900. Thomas Edison and his associates at the Edison Laboratory in West Orange, New Jersey, invented the first system of commercial motion pictures. Making the historical framework predominant while

retaining traditional cataloging features, Edison Motion Pictures, 1890-1900 is of value to a wide range of scholars interested in American life at the turn of the century - those working in performance studies, film and media studies, cultural history, ethnic studies, and social and political history. Documentary filmmakers, film programmers, archivists, and librarians can also benefit from using this catalog. Edison films from the end of the nineteenth century offer a unique visual record of American entertainment and popular culture - moving images that become much more interesting and useful when they can be examined in conjunction with pertinent documentation. Scholars concerned with portrayals of war, depictions of the American presidency, and many other topics in the nation's political history will find much useful information.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. april 15 events in history: *Populism in the Civil Sphere* Jeffrey C. Alexander, Peter Kivisto, Giuseppe Sciortino, 2020-12-03 Even as the specter of populism haunts contemporary societies, scholars have not been able to agree about what it is. Except for one thing: a deviation from democracy, the source, it seems, of the precarious position in which so many societies find themselves today. This volume aims to break the Gordian knot of "populism" by bringing a new social theory to bear and, in so doing so, suggesting that normative judgments about this misunderstood phenomenon need to be reconsidered as well. Populism is not a democratic deviation but a naturally occurring dimension of civil sphere dynamics, fatal to democracy only at the extremes. Because populism is highly polarizing, it has the effect of inducing anxiety that civil solidarity is breaking apart. Left populists feel as if civil solidarity is an illusion, that democratic discourse is a fig leaf for private interests, and that the social and cultural differentiation that vouchsafes the independence of the civil sphere merely reflects the hegemony of narrow professional interests or those of a ruling class. Right populists share the same distrust, even repulsion, for the civil sphere. What seems civil to the center and left, like affirmative action or open immigration, they call out as particularistic; honored civil icons, such as Holocaust memorials, they trash. How can the sense of a vital civil center survive such censure from populism on the left and the right? *Populism in the Civil Sphere* provides compelling answers to these fundamental questions. Its contributions are both sophisticated theoretical interventions and deeply researched empirical studies, and it will be of great interest to anyone concerned about the most important political developments of our time.

april 15 events in history: NASA's First Space Shuttle Astronaut Selection David J. Shayler, Colin Burgess, 2020-07-10 Unofficially they called themselves the TFNG, or the Thirty-Five New Guys. Officially, they were NASA's Group 8 astronauts, selected in January 1978 to train for orbital missions aboard the Space Shuttle. Prior to this time only pilots or scientists trained as pilots had been assigned to fly on America's spacecraft, but with the advent of the innovative winged spacecraft the door was finally opened to non-pilots, including women and minorities. In all, 15 of those selected were categorised as Pilot Astronauts, while the other 20 would train under the new designation of Mission Specialist. Altogether, the Group 8 astronauts would be launched on a total of 103 space missions; some flying only once, while others flew into orbit as many as five times. Sadly, four of their number would perish in the Challenger tragedy in January 1986. In their latest

collaborative effort, the authors bring to life the amazing story behind the selection of the first group of Space Shuttle astronauts, examining their varied backgrounds and many accomplishments in a fresh and accessible way through deep research and revealing interviews. Throughout its remarkable 30-year history as the workhorse of NASA's human spaceflight exploration, twice halted through tragedy, the Shuttle fleet performed with magnificence. So too did these 35 men and women, swept up in the dynamic thrust and ongoing development of America's Space Shuttle program. This book on the Group 8 Astronauts, the TFNGs, is an excellent summation of the individuals first selected for the new Space Shuttle Program. It provides insight into what it took to first get the Space Shuttle flying. For any space enthusiast it is a must read. - Robert L. Crippen PLT on STS-1 "As a reader, I had many moments where long, lost memories of the triumph and tragedy of the space shuttle program were brilliantly reawakened at the turn of a page. Loved it! This is a must-have book for every space enthusiast's library." - TFNG Mission Specialist Astronaut Richard 'Mike' Mullane, author of *Riding Rockets: The Outrageous Tales of a Space Shuttle Astronaut* "Many of the anecdotes in the book brought back memories of challenges, opportunities, and a team of men and women who were committed not just to the space program, but to one another...I've gone back to it several times as a reference source." - TFNG Steve Hawley, 5-time Space Shuttle Mission Specialist Astronaut The TFNG book is incredible and amazingly thorough! The detail in the book is awesome! It is my go-to book for any of the details I've forgotten. - TFNG Dr. Rhea Seddon, 3-time Space Shuttle Mission Specialist Astronaut. I can't believe how detailed and complete it is!!! FANTASTIC work!!! - TFNG Robert L. Hoot Gibson, 5-time Space Shuttle Pilot & Commander and former Chief of the NASA Astronaut Office

april 15 events in history: *A Probabilistic Analysis of the Sacco and Vanzetti Evidence* Joseph B. Kadane, David A. Schum, 2011-09-26 *A Probabilistic Analysis of the Sacco and Vanzetti Evidence* is a Bayesian analysis of the trial and post-trial evidence in the Sacco and Vanzetti case, based on subjectively determined probabilities and assumed relationships among evidential events. It applies the ideas of charting evidence and probabilistic assessment to this case, which is perhaps the ranking cause celebre in all of American legal history. Modern computation methods applied to inference networks are used to show how the inferential force of evidence in a complicated case can be graded. The authors employ probabilistic assessment to obtain opinions about how influential each group of evidential items is in reaching a conclusion about the defendants' innocence or guilt. *A Probabilistic Analysis of the Sacco and Vanzetti Evidence* holds particular interest for statisticians and probabilists in academia and legal consulting, as well as for the legal community, historians, and behavioral scientists. It combines structural and probabilistic ideas in the analysis of masses of evidence from every recognized logical species of evidence. Twenty-eight charts show the chains of reasoning in defense of the relevance of evidentiary matters and a listing of trial witnesses who provided the evidence. References include nearly 300 items drawn from the fields of probability theory, history, law, artificial intelligence, psychology, literature, and other areas.

april 15 events in history: *Defender* Quentin Thomas Wells, 2016-11-21 *Defender* is the first and only scholarly biography of Daniel H. Wells, one of the important yet historically neglected leaders among the nineteenth-century Mormons—leaders like Heber C. Kimball, George Q. Cannon, and Jedediah M. Grant. An adult convert to the Mormon faith during the Mormons' Nauvoo period, Wells developed relationships with men at the highest levels of the church hierarchy, emigrated to Utah with the Mormon pioneers, and served in a series of influential posts in both church and state. Wells was known especially as a military leader in both Nauvoo and Utah—he led the territorial militia in four Indian conflicts and a confrontation with the US Army (the Utah War). But he was also the territorial attorney general and obtained title to all the land in Salt Lake City from the federal government during his tenure as the mayor of Salt Lake City. He was Second Counselor to Brigham Young in the LDS Church's First Presidency and twice served as president of the Mormon European mission. Among these and other accomplishments, he ran businesses in lumbering, coal mining,

manufacturing, and gas production; developed roads, ferries, railroads, and public buildings; and presided over a family of seven wives and thirty-seven children. Wells witnessed and influenced a wide range of consequential events that shaped the culture, politics, and society of Utah in the latter half of the nineteenth century. Using research from relevant collections, sources in public records, references to Wells in the Joseph Smith papers, other contemporaneous journals and letters, and the writings of Brigham Young, Quentin Thomas Wells has created a serious and significant contribution to Mormon history scholarship.

april 15 events in history: A History of Creole Trinidad, 1956-2010 Raymond Ramcharitar, 2021-08-06 This book offers a history of post-Independence Trinidad and Tobago. It explores how culture and politics have operated in tandem to shape the society. Drawing on a wide range of sources, including literature, government reports, official statistics, the press and the Carnival, it critically analyses the popular conception of creolization as the driving force in modern Trinidad and Tobago. Ultimately, the book examines the way in which Trinidad and Tobago's unique ethnic and political ecosystems contribute to its national character.
