armed forces foundation financial assistance: All Secure Tom Satterly, Steve Jackson, 2019-11-05 One of the most highly regarded special operations soldiers in American military history shares his war stories and personal battle with PTSD. As a senior non-commissioned officer of the most elite and secretive special operations unit in the U.S. military, Command Sergeant Major Tom Satterly fought some of this country's most fearsome enemies. Over the course of twenty years and thousands of missions, he's fought desperately for his life, rescued hostages, killed and captured terrorist leaders, and seen his friends maimed and killed around him. All Secure is in part Tom's journey into a world so dark and dangerous that most Americans can't contemplate its existence. It recounts what it is like to be on the front lines with one of America's most highly trained warriors. As action-packed as any fiction thriller, All Secure is an insider's view of The Unit. Tom is a legend even among other Tier One special operators. Yet the enemy that cost him three marriages, and ruined his health physically and psychologically, existed in his brain. It nearly led him to kill himself in 2014; but for the lifeline thrown to him by an extraordinary woman it might have ended there. Instead, they took on Satterly's most important mission-saving the lives of his brothers and sisters in arms who are killing themselves at a rate of more than twenty a day. Told through Satterly's firsthand experiences, it also weaves in the reasons-the bloodshed, the deaths, the intense moments of sheer terror, the survivor's guilt, depression, and substance abuse-for his career-long battle against the most insidious enemy of all: Post Traumatic Stress. With the help of his wife, he learned that by admitting his weaknesses and faults he sets an example for other combat veterans struggling to come home.

Families, Committee on the Well-Being of Military Families, 2019-10-25 The U.S. military has been continuously engaged in foreign conflicts for over two decades. The strains that these deployments, the associated increases in operational tempo, and the general challenges of military life affect not only service members but also the people who depend on them and who support them as they support the nation — their families. Family members provide support to service members while they serve or when they have difficulties; family problems can interfere with the ability of service members to deploy or remain in theater; and family members are central influences on whether members continue to serve. In addition, rising family diversity and complexity will likely increase the difficulty of creating military policies, programs and practices that adequately support families in the performance of military duties. Strengthening the Military Family Readiness System for a Changing American Society examines the challenges and opportunities facing military families and what is known about effective strategies for supporting and protecting military children and families, as well as lessons to be learned from these experiences. This report offers recommendations regarding what is needed to strengthen the support system for military families.

armed forces foundation financial assistance: Defense Health Care, 1993 In October 1989 the Department of Defense introduced its Corporate Information Management (CIM) initiative to reengineer its business practices and make better use of information technology. In May 1990, a Medical Functional Group was established within the Office of the Assistant Secretary of Defense for Health Affairs to institutionalize the CIM process within the Military Health Services System. This letter addresses our review of CIN's implementation in military health services—one of the eight functional areas selected for initial CIM implementation. At a time when health care costs are rising dramatically, CIM offers opportunities to reduce not only health care information technology expenses but, more important, the overall costs of providing care.

armed forces foundation financial assistance: *Let's Talk about Death (over Dinner)* Michael Hebb, 2018-10-02 For readers of *Being Mortal* and *When Breath Becomes Air*, the acclaimed founder of Death over Dinner offers a practical, inspiring guide to life's most difficult yet important conversation. Of the many critical conversations we will all have throughout our lifetime, few are as important as the ones discussing death—and not just the practical considerations, such as DNRs and wills, but what we fear, what we hope, and how we want to be remembered. Yet few of these conversations are actually happening. Inspired by his experience with his own father and countless stories from others who regret not having these conversations, Michael Hebb cofounded Death Over Dinner—an organization that encourages people to pull up a chair, break bread, and really talk about the one thing we all have in common. Death Over Dinner has been one of the most effective end-of-life awareness campaigns to date; in just three years, it has provided the framework and inspiration for more than a hundred thousand dinners focused on having these end-of-life conversations. As Arianna Huffington said, We are such a fast-food culture, I love the idea of making the dinner last for hours. These are the conversations that will help us to evolve. *Let's Talk About Death (over Dinner)* offers keen practical advice on how to have these same conversations—not just at the dinner table, but anywhere. There's no one right way to talk about death, but Hebb shares time—and dinner—tested prompts to use as conversation starters, ranging from the spiritual to the practical, from analytical to downright funny and surprising. By transforming the most difficult conversations into an opportunity, they become celebratory and meaningful—ways that not only can change the way we die, but the way we live.

armed forces foundation financial assistance: *The Pig Book* Citizens Against Government Waste, 2013-09-17 The federal government wastes your tax dollars worse than a drunken sailor on shore leave. The 1984 Grace Commission uncovered that the Department of Defense spent \$640 for a toilet seat and \$436 for a hammer. Twenty years later things weren't much better. In 2004, Congress spent a record-breaking \$22.9 billion dollars of your money on 10,656 of their pork-barrel projects. The war on terror has a lot to do with the record \$413 billion in deficit spending, but it's

also the result of pork over the last 18 years the likes of: - \$50 million for an indoor rain forest in Iowa - \$102 million to study screwworms which were long ago eradicated from American soil - \$273,000 to combat goth culture in Missouri - \$2.2 million to renovate the North Pole (Lucky for Santa!) - \$50,000 for a tattoo removal program in California - \$1 million for ornamental fish research Funny in some instances and jaw-droppingly stupid and wasteful in others, The Pig Book proves one thing about Capitol Hill: pork is king!

armed forces foundation financial assistance: Transforming the Workforce for Children Birth Through Age 8 National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

The essays in this volume explore the ways in which Latin American women have shaped-and have been shaped by-the traditional practices and ideologies of their cultures. The selections are arranged in two sections: Culture and the Status of Women, and Reconstructing the Past.

armed forces foundation financial assistance: Army Support During the Hurricane Katrina Disaster James A. Wombwell, 2011 This is a print on demand edition of a hard to find publication. Hurricane Katrina, in Aug. 2005, was the costliest hurricane as well as one of the five deadliest storms in U.S. history. It caused extensive destruction along the Gulf coast from central Florida to Texas. Some 22,000 Active-Duty Army personnel assisted with relief-and-recovery operations in Mississippi and Louisiana. At the same time, all 50 states sent approx. 50,000 National Guard personnel to deal with the storm's aftermath. Because the media coverage of this disaster tended toward the sensational more than the analytical, many important stories remain to be told in a dispassionate manner. This study offers a dispassionate analysis of the Army's response to the natural disaster by providing a detailed account of the operations in Louisiana and Mississippi.

armed forces foundation financial assistance: Military Finances Don Philpott, Cheryl Lawhorne-Scott, 2013-07-11 Military Finances is essential reading for any soldier, veteran, or military family member concerned with their financial future. Members of the military often have a tough time handling their finances, whether it be while serving active duty or when returning to civilian life; and our uncertain economy and job market only magnify those issues. Many serving in the military are young, with little or no training in financial affairs, and face frequent deployments and relocations—all of which can wreak havoc on a person's finances. This book provides a one-stop guide to navigating the many financial questions facing today's military in all phases of service: Active duty Preparing for transition or retirement And post-military lives and careers It covers general financial planning along with many specific aspects of money management vital to military members and their families, proving an indispensable and informative resource for those who fight to defend our freedoms every day, and have for generations.

armed forces foundation financial assistance: Special Needs Families in the Military Janelle B. Moore, Don Philpott, 2011-01-16 The saying 'it takes a village to raise a child' is especially true for families with special needs children. It takes an 'army' of therapists, doctors, nurses, counselors, and educators. Special needs families in the military often find the task even more daunting, compounded by the unique circumstances of military life today. Even though the challenges are often greater, there are many helpful resources for families in the military who are raising a special needs child. In *Special Needs Families in the Military: A Resource Guide*, authors Janelle Hill and Don Philpott provide advice on the many issues that arise, including diagnoses,

financial support, education, medical care, case management, insurance, advocacy, and coping with the accompanying mental and emotional trials. The book covers the basic challenges which all special needs families must face, and also pays special attention to those resources, programs, and aids available to special needs families in the military, where the added stresses of military life often make things seem overwhelming. This book guides special needs families through all the procedures and protocol they must face, and offers helpful tips for setbacks and unexpected challenges that may arise. It is essential reading for military families with special needs children and those who work with them.

armed forces foundation financial assistance: Congress and U.S. Veterans Lindsey Cormack, 2018-09-07 Providing a compelling look at veterans' policy, this book describes why the Republican party is considered the party for veterans despite the fact that Congressional Democrats are responsible for a greater number of policy initiatives. The United States is home to 21 million veterans, and Veterans' Affairs is the second-largest federal department, with a budget exceeding \$119 billion. Many veterans, however, remain under-served. Republicans are seen as veterans' champions, and they send the majority of Congressional constituent communications on veterans' issues, yet they are lead sponsors on only 37 percent of bills considered by the Senate Veterans' Affairs Committee. What accounts for this discrepancy? Drawing on thousands of e-newsletters sent from Congress to constituents, *Congress and U.S. Veterans: From the GI Bill to the VA Crisis* argues that the distribution of veterans across districts and the Republican Party is based on government spending, which pulls Republican legislators in opposite directions. This eye-opening book offers a history of veterans' programs, highlights legislative leaders and the most pressing policy areas for reform, identifies the issues most often discussed by members of Congress from each party, points out which Congresspeople have acted on veterans' issues and which have not, and offers an analysis of veteran population distribution and legislative policy preferences.

armed forces foundation financial assistance: United States Code United States, 2013 The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.
