arkansas razorback logo history: Horns, Hogs, and Nixon Coming Terry Frei, 2007-11-01 On December 6, 1969, the Texas Longhorns and Arkansas Razorbacks met in what many consider the Game of the Century. In the centennial season of college football, both teams were undefeated; both featured devastating and innovative offenses; both boasted cerebral, stingy defenses; and both were coached by superior tacticians and stirring motivators, Texas's Darrell Royal and Arkansas's Frank Broyles. On that day in Fayetteville, the poll-leading Horns and second-ranked Hogs battled for the Southwest Conference title -- and President Nixon was coming to present his own national championship plaque to the winners. Even if it had been just a game, it would still have been memorable today. The bitter rivals played a game for the ages before a frenzied, hog-callin' crowd that included not only an enthralled President Nixon -- a noted football fan -- but also Texas congressman George Bush. And the game turned, improbably, on an outrageously daring fourth-down pass. But it wasn't just a game, because nothing was so simple in December 1969. In Horns, Hogs, & Nixon Coming, Terry Frei deftly weaves the social, political, and athletic trends together for an unforgettable look at one of the landmark college sporting events of all time. The week leading up to the showdown saw black student groups at Arkansas, still marginalized and

targets of virulent abuse, protesting and seeking to end the use of the song Dixie to celebrate Razorback touchdowns; students were determined to rush the field during the game if the band struck up the tune. As the United States remained mired in the Vietnam War, sign-wielding demonstrators (including war veterans) took up their positions outside the stadium -- in full view of the president. That same week, Rhodes Scholar Bill Clinton penned a letter to the head of the ROTC program at the University of Arkansas, thanking the colonel for shielding him from induction into the military earlier in the year. Finally, this game was the last major sporting event that featured two exclusively white teams. Slowly, inevitably, integration would come to the end zones and hash marks of the South, and though no one knew it at the time, the Texas vs. Arkansas clash truly was Dixie's Last Stand. Drawing from comprehensive research and interviews with coaches, players, protesters, professors, and politicians, Frei stitches together an intimate, electric narrative about two great teams -- including one player who, it would become clear only later, was displaying monumental courage just to make it onto the field -- facing off in the waning days of the era they defined. Gripping, nimble, and clear-eyed, *Horns, Hogs, & Nixon Coming* is the final word on the last of how it was.

Burlsworth excelled in high school football, made All-Conference and All-State, and walked on to the University of Arkansas to become the first All-American from that program in a decade. Selected in the third round of the 1999 NFL draft by the Indianapolis Colts, he went to mini-camp but was killed a few days later in an auto accident. His motivation and drive to be the best stemmed from his character of integrity and the stand that he took as a Christian.

arkansas razorback logo history: *Knights of Spain, Warriors of the Sun* Charles M. Hudson, 2018
Between 1539 and 1542 Hernando de Soto led a small army on a desperate journey of exploration of almost four thousand miles across the U. S. Southeast. Until the 1998 publication of Charles M. Hudson's foundational *Knights of Spain, Warriors of the Sun*, De Soto's path had been one of history's most intriguing mysteries. With this book, anthropologist Charles Hudson offers a solution to the question, Where did de Soto go? Using a new route reconstruction, for the first time the story of the de Soto expedition can be laid on a map, and in many instances it can be tied to specific archaeological sites. Arguably the most important event in the history of the Southeast in the sixteenth century, De Soto's journey cut a bloody and indelible swath across both the landscape and native cultures in a quest for gold and personal glory. The desperate Spanish army followed the sunset from Florida to Texas before abandoning its mission. De Soto's one triumph was that he was the first European to explore the vast region that would be the American South, but he died on the banks of the Mississippi River a broken man in 1542. With a new foreword by Robbie Ethridge reflecting on the continuing influence of this now classic text, the twentieth-anniversary edition of *Knights* is a clearly written narrative that unfolds against the exotic backdrop of a now extinct social and geographic landscape. Hudson masterfully chronicles both De Soto's expedition and the native societies he visited. A blending of archaeology, history, and historical geography, this is a monumental study of the sixteenth-century Southeast.

arkansas razorback logo history: *Once Upon Dickson* Anthony J. Wappel, Ethel C. Simpson, 2008-01-01
Once Upon Dickson tells the story of Dickson Street, Fayetteville, Arkansas, the colorful and ever-changing link between the center of town and the University campus. Carefully researched, it will appeal to a large popular audience of residents and visitors to the city's premier entertainment district and to University personnel and alumni, for whom it is as memorable in their college experience as Old Main or Razorback Stadium. In a time when Dickson Street is undergoing radical change, the book serves as a reminder that the street has been changing almost from the

earliest time in its history. Residences, churches, public institutions, and businesses have come, gone, and sometimes come again, but because of its location, Dickson Street remains at the heart of Fayetteville.

arkansas razorback logo history: John McDonnell Andrew Maloney, John McDonnell, 2013-03-01 When John McDonnell began his coaching career at the University of Arkansas at Fayetteville--choosing it over Norman, Oklahoma, because Fayetteville reminded him of his native Ireland--he could hardly have imagined that he would become the most successful coach in the history of American collegiate athletics. But, in thirty-six years at the university, he amassed a staggering resume of accomplishments, including forty national championships (eleven cross country, nineteen indoor track, and ten outdoor track), the most by any coach in any sport in NCAA history. His teams at Arkansas won the triple crown (a championship in cross country, indoor track, and outdoor track in a single school year) a record five times. This biography tells the story of the McDonnell's life and legacy, from his childhood growing up on a farm in 1940s County Mayo, Ireland, to his own running career, to the beginnings of his life as a coach, to all the great athletes he mentored along the way.

arkansas razorback logo history: Remembrances in Black Charles F. Robinson II, Lonnie R. Williams, 2010-12-01 With the admittance in 1948 of Silas Hunt to the University of Arkansas Law School, the university became the first southern public institution of higher education to officially desegregate without being required to do so by court order. The process was difficult, but an important first step had been taken. Other students would follow in Silas Hunt's footsteps, and they along with the university would have to grapple with the situation. Remembrances in Black is an oral history that gathers the personal stories of African Americans who worked as faculty and staff and of students who studied at the state's flagship institution. These stories illustrate the anguish, struggle, and triumph of individuals who had their lives indelibly marked by their experiences at the school. Organized chronologically over sixty years, this book illustrates how people of color navigated both the evolving campus environment and that of the city of Fayetteville in their attempt to fulfill personal aspirations. Their stories demonstrate that the process of desegregation proved painfully slow to those who chose to challenge the forces of exclusion. Also, the remembrances question the extent to which desegregation has been fully realized.

arkansas razorback logo history: Fearless Eric Blehm, 2013-05-21 Go deep into SEAL Team SIX, straight to the heart of one of its most legendary operators. When Navy SEAL Adam Brown woke up on March 17, 2010, he didn't know he would die that night in the Hindu Kush Mountains of Afghanistan—but he was ready. In a letter to his children, not meant to be seen unless the worst happened, he wrote, "I'm not afraid of anything that might happen to me on this earth, because I know no matter what, nothing can take my spirit from me." Fearless is the story of a man of extremes, whose courage and determination were fueled by faith, family, and the love of a woman. It's about a man who waged a war against his own worst impulses, including drug addiction, and persevered to reach the top tier of the U.S. military. In a deeply personal and absorbing chronicle, Fearless reveals a glimpse inside the SEAL Team SIX brotherhood, and presents an indelible portrait of a highly trained warrior whose final act of bravery led to the ultimate sacrifice. Adam Brown was a devoted man who was an unlikely hero but a true warrior, described by all who knew him as...fearless. "As a rule, we don't endorse books or movies or anything regarding the command where I work—and Adam Brown worked—but as the author writes in Fearless, 'you have to know the rules, so you know when to bend or break them.' This is one of those times. Read this book. Period. It succeeds where all the others have failed." —SEAL Team SIX Operator

arkansas razorback logo history: A History of Wine in America, Volume 2 Thomas Pinney, 2005-07-05 A History of Wine in America is the definitive account of winemaking in the United States, first as it was carried out under Prohibition, and then as it developed and spread to all fifty states after the repeal of Prohibition. Engagingly written, exhaustively researched, and rich in detail, this book describes how Prohibition devastated the wine industry, the conditions of renewal after

Repeal, the various New Deal measures that affected wine, and the early markets and methods. Thomas Pinney goes on to examine the effects of World War II and how the troubled postwar years led to the great wine boom of the late 1960s, the spread of winegrowing to almost every state, and its continued expansion to the present day. The history of wine in America is, in many ways, the history of America and of American enterprise in microcosm. Pinney's sweeping narrative comprises a lively cast of characters that includes politicians, bootleggers, entrepreneurs, growers, scientists, and visionaries. Pinney relates the development of winemaking in states such as New York and Ohio; its extension to Pennsylvania, Virginia, Texas, and other states; and its notable successes in California, Washington, and Oregon. He is the first to tell the complete and connected story of the rebirth of the wine industry in California, now one of the most successful winemaking regions in the world.

arkansas razorback logo history: Looking Back at the Arkansas Gazette Roy Reed, 2009-04-01 With a legendary beginning as a printing press floated up the Arkansas River in 1819, the Arkansas Gazette is inextricably linked with the state's history, reporting on every major Arkansas event until the paper's demise in 1991 after a long, bitter, and very public newspaper war. Looking Back at the Arkansas Gazette, knowledgeably and intimately edited by longtime Gazette reporter Roy Reed, comprises interviews from over a hundred former Gazette staffers recalling the stories they reported on and the people they worked with from the late forties to the paper's end. The result is a nostalgic and justifiably admiring look back at a publication known for its progressive stance in a conservative Southern state, a newspaper that, after winning two Pulitzers for its brave rule-of-law stance during the Little Rock Central High Crisis, was considered one of the country's greatest. The interviews, collected from archives at the David and Barbara Pryor Center for Arkansas Oral and Visual History at the University of Arkansas, provide fascinating details on renowned editors and reporters such as Harry Ashmore, Orville Henry, and Charles Portis, journalists who wrote daily on Arkansas's always-colorful politicians, its tragic disasters and sensational crimes, its civil rights crises, Bill Clinton, the Razorbacks sports teams, and much more. Full of humor and little-known details, Looking Back at the Arkansas Gazette is a fascinating remembrance of a great newspaper.

arkansas razorback logo history: Arkansas Beer Brian Sorensen, 2017 Arkansas's booze scene had a promising start, with America's biggest brewing families, Busch and Lemp, investing in Little Rock just prior to Prohibition. However, by 1915, the state had passed the Newberry Act, banning the manufacturing and selling of alcohol. It was not until sixty-nine years later that the state welcomed its first post-temperance brewery, Arkansas Brewing Company. After a few false starts, brewpubs in Fayetteville, Fort Smith and Little Rock found success. By 2000, the industry had regained momentum. An explosion of breweries around the state has since propelled Arkansas into the modern beer age.
