Loring and Rounds: A Trustee's Handbook is a handy, ready reference, and a gateway to the treatises, restatements, law review articles, uniform statutes, and cases you need to know. This fully integrated and bound volume of the 2021 Handbook brings you up to date on the latest cases, statutes, and developments, as well as new or updated discussion of topics as follow: The Handbook continues the lengthy process of pruning some of the deadwood; significant exposition has been cut, revised, or combined. In sum, the Handbook is now even leaner, meaner, and more usable than ever. In addition, numerous new cases and secondary sources have been added. These include the following: The 2021 Handbook fully covers the fourth income and principal act issued by the Uniform Law Commission, namely the Uniform Fiduciary Income and Principal Act (2018), otherwise known as UFIPA. UFIPA has been covered extensively in this edition and has been added in many separate sections. A new section covers remedies at law for breaches of trust, such as the tort of intentional interference with inheritance or acquisition by inter vivos transfer. In addition, the Handbook has been updated with 200+ new cases, including: Roth v. Jelley, holding that, when it comes to a judicial proceeding that could adversely affect the equitable property rights of a trust beneficiary, the beneficiary is entitled under the Due Process Clause of the Fourteenth Amendment to notice and an opportunity to be heard. This case also discusses the various consequences attendant to the failure to provide such notice. Hector v. Bank of N.Y. Mellon, where the court, having in part looked to the Restatement (Third) for guidance, held that the designated passive corporate trustee of a securitized fund of mortgage-backed notes would not be personally at fault, and therefore, not personally liable for any injuries to the tenants of a certain parcel of real estate, title to which the trustee had acquired via foreclosure, that might be occasioned by their exposure to lead paint in and about the premises. Murphy v. Trustee of Star Financial Bank, a case discussing the unfortunate linkage of survivorship and per stirpes: to their surviving children per stirpes. The court held that the way in which surviving and per stirpes were linked rendered the provision itself ambiguous in that the condition of survival negates the right of representation inherent in a per stirpes distribution. 2020 Tax Rates for Trusts and 2021 Projected Tax Rate Schedule for Trusts Note: Online subscriptions are for three-month periods. arizona probate law frequently asked questions: Navajo Courts and Navajo Common Law Raymond Darrel Austin, 2009 The Navajo Nation court system is the largest and most established

tribal legal system in the world. Since the landmark 1959 U.S. Supreme Court decision in *Williams v. Lee* that affirmed tribal court authority over reservation-based claims, the Navajo Nation has been at the vanguard of a far-reaching, transformative jurisprudential movement among Indian tribes in North America and indigenous peoples around the world to retrieve and use traditional values to address contemporary legal issues. A justice on the Navajo Nation Supreme Court for sixteen years, Justice Raymond D. Austin has been deeply involved in the movement to develop tribal courts and tribal law as effective means of modern self-government. He has written foundational opinions that have established Navajo common law and, throughout his legal career, has recognized the benefit of tribal customs and traditions as tools of restorative justice. In *Navajo Courts and Navajo Common Law*, Justice Austin considers the history and implications of how the Navajo Nation courts apply foundational Navajo doctrines to modern legal issues. He explains key Navajo foundational concepts like Hózhó (harmony), K'é (peacefulness and solidarity), and K'éí (kinship) both within the Navajo cultural context and, using the case method of legal analysis, as they are adapted and applied by Navajo judges in virtually every important area of legal life in the tribe. In addition to detailed case studies, Justice Austin provides a broad view of tribal law, documenting the development of tribal courts as important institutions of indigenous self-governance and outlining how other indigenous peoples, both in North America and elsewhere around the world, can draw on traditional precepts to achieve self-determination and self-government, solve community problems, and control their own futures.

arizona probate law frequently asked questions: *The Retirement Nightmare* Diane G. Armstrong, 2000-05 **WARNING:** At the hearing you may lose many of your rights. A guardian may be appointed to make personal decisions for you. A conservator may be appointed to make decisions concerning your property and finances. The appointment may affect control of how you spend your money, how your property is managed and controlled, who makes your medical decisions, where you live, whether you are allowed to vote, and other important rights. The above warning, sent to all allegedly incapacitated seniors in the state of Virginia, summarizes the nightmare that can befall senior citizens anywhere in the United States as a result of involuntary conservatorship or guardianship proceedings. Statutes originally designed to help elderly friends and relatives who are unable to look after their own personal or financial needs are now being increasingly abused by calculating heirs to direct the transfer of family assets to themselves-with the courts' blessings. Based on fifty-five cases drawn from courtrooms across America and the author's own bitter experience, *The Retirement Nightmare* describes what can happen to competent senior citizens when such proceedings are filed against them by relatives or other so-called protectors in the social welfare community. Dr. Armstrong, who was forced to battle her own siblings in a million-dollar court battle to place her competent mother in an involuntary conservatorship, reveals how these arcane conservatorship and guardianship codes function in our courts today; unfortunately, as the author learned firsthand, the actual application of these codes is determined almost solely by the competence and attitudes of individual judges and investigators. She highlights the key problem areas common to the codes that should be changed and recommends ways that seniors can protect themselves to preserve their personal and financial freedom in their retirement years. She also suggests alternatives to conservatorships and guardianships that exist in every state to help the elderly with various aspects of daily living, such as balancing checkbooks, paying bills, grocery shopping, preparing meals, etc. This breakthrough book exposes the secretive world of involuntary protective proceedings and more importantly gives seniors the tools they need to protect themselves from this predatory litigation. Diane G. Armstrong, Ph.D. (Santa Barbara, CA) is a clinical

psychologist who works as a writer and consultant specializing in conservatorship/guardianship issues.

arizona probate law frequently asked questions: Digital Executor® Sharon Hartung, 2021-04-26 The world has gone digital and so have our clients' estates. Digital assets may simply be electronic records, but they are the digital gateway to our lives. They are our memories, our money, and our records, making technology the new player at the estate planning table. The Digital Executor®: Unraveling the New Path for Estate Planning arms estate advisors, business owners, service providers, and the broader estate and technology industries with heightened awareness of client expectations regarding their digital estates. Everyone needs a will and in today's age of digitization, estate plans must include your client's digital life. This book is a primer for understanding a client's personal use case when navigating estate management in the digital age with introductions to technology and the underlying aspects and differences between digital asset classes. With technology being the new player at the client's estate planning table, estate advisors must be educated, motivated, and prepared, adapting policies and processes for operating in the digital world. Equally, technology and service providers must align with the stars to be integrated partners in estate industry conversations. Sharon's first book, Your Digital Undertaker: Exploring Death in the Digital Age in Canada, was about digital assets in the context of an individual's or client's estate planning life cycle. This follow-up book, Digital Executor®: Unraveling the New Path for Estate Planning is about digital assets in the context of the estate industry. This book draws the reader into the world of estate planning with a digital twist, bringing together how the global estate industry, technology and service providers must address client expectations about their digital assets and the implications of the changing role of the fiduciary/executor. To understand the role of digital assets in the estate industry, we must first understand technology, the client's user context, and the changing role of the estate advisor. From an estate industry perspective, if today's executor is a digital executor and today's fiduciary is a digital fiduciary, then today's advisor must be a digital advisor.
