barbara walters saddam hussein interview: Unclear Physics Målfrið Braut-Hegghammer, 2016-08 Many authoritarian leaders want nuclear weapons, but few manage to acquire them. Autocrats seeking nuclear weapons fail in different ways and to varying degrees—Iraq almost managed it; Libya did not come close. In *Unclear Physics*, Målfrið Braut-Hegghammer compares the two failed nuclear weapons programs, showing that state capacity played a crucial role in the trajectory and outcomes of both projects. Braut-Hegghammer draws on a rich set of new primary sources, collected during years of research in archives, fieldwork across the Middle East, and interviews with scientists and decision makers from both states. She gained access to documents and individuals that no other researcher has been able to consult. Her book tells the story of the Iraqi and Libyan programs from their origins in the late 1950s and 1960s until their dismantling. This book reveals contemporary perspectives from scientists and regime officials on the opportunities and challenges facing each project. Many of the findings challenge the conventional wisdom about clandestine weapons programs in closed authoritarian states and their prospects of success or failure. Braut-Hegghammer suggests that scholars and analysts ought to pay closer attention to how state capacity affects nuclear weapons programs in other authoritarian regimes, both in terms of questioning the actual control these leaders have over their nuclear weapons programs and the capability of their scientists to solve complex technical challenges.

barbara walters saddam hussein interview: The Rulebreaker Susan Page, 2024-04-23 The definitive biography of the most successful female broadcaster of all time—Barbara Walters—a woman whose personal demons fueled an ambition that broke all the rules and finally gave women a permanent place on the air, written by bestselling author Susan Page. Barbara Walters was a force from the time TV was exploding on the American scene in the 1960s to its waning dominance in a new world of competition from streaming services and social media half a century later. She was not just a groundbreaker for women (Oprah announced when she was seventeen that she wanted to be Barbara Walters), but also expanded the big TV interview and then dominated the genre. By the end of her career, she had interviewed more of the famous and infamous, from presidents to movie stars to criminals to despots, than any other journalist in history. Then at sixty-seven, past the age many female broadcasters found themselves involuntarily retired, she pioneered a new form of talk TV called *The View*. She is on the short list of those who have left the biggest imprints on television news and on our culture, male or female. So, who was the woman behind the legacy? In *The Rulebreaker*, Susan Page conducts 150 interviews and extensive archival research to discover that Walters was driven to keep herself and her family afloat after her mercurial and famous impresario father attempted suicide. But she never lost the fear of an impending catastrophe, which is what led her to ask for things no woman had ever asked for before, to ignore the rules of misogynistic culture, to outcompete her most ferocious competitors, and to protect her complicated marriages and love life from scrutiny. Page breaks news on every front—from the daring things Walters did to become the woman who reinvented the TV interview to the secrets she kept until her death. This is the

eye-opening account of the woman who knew she had to break all the rules so she could break all the rules about what viewers deserved to know.

barbara walters saddam hussein interview: *Deserts of Fire* Douglas Lain, 2016-07-12 In 1987, the New York Times published their first front-page review of a science fiction anthology for a collection called *In the Field of Fire*, themed around the war in Vietnam. "Vietnam was science fiction," the reviewer wrote, and writing about it through that lens found meaning in a war few understood. This idea, that speculative fiction is a vital tool to understanding the inexplicable, is just as relevant nearly thirty years later. *Deserts of Fire* is a war-inspired anthology for the new millennium, because for many, the recent wars in the deserts of Iraq, Afghanistan, and the Middle East are just as slippery to grasp and difficult to understand as Vietnam was two generations earlier. Inside *Deserts of Fire* are stories from a variety of bestselling and award-winning authors that start with the simple and modest ambition of making the reader feel strange about the recent past. Because when there are too many explanations, the truth won't be found by merely choosing one side or the other. But rather, the truth is in the existence of the confusion itself. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

barbara walters saddam hussein interview: *In His Father's Shadow* Stanley A. Renshon, 2015-03-10 From a pampered son who showed little promise, to his rise to the presidency, George W. Bush has transformed himself through acts of will and faith. Stanley Renshon examines the psychological transformation of Bush and identifies those pivotal changes that allowed him to achieve success in his personal life and in the political arena, and shows how Bush's personal transformation has come to shape his political policies. The man who battled--and defeated--his own inner demons has become a president determined to battle the demons of terrorism and extremism that prevent democracy from flourishing around the world. This psychological portrait provides a much-needed antidote to prevailing critiques that ridicule Bush's values and policies, as it celebrates his resolve and strong leadership.

barbara walters saddam hussein interview: *Audition* Barbara Walters, 2009-05-05 #1 NATIONAL BESTSELLER • An inspiring and riveting memoir from the most important woman in the history of television journalism. "A delightful tale of the golden age of television.... Juicy behind-the-scenes details of the celebrities she's interviewed, mixed in with stories of her own trials and tribulations." —The Washington Post After more than fifty years of interviewing heads of state, world

leaders, movie stars, criminals, murderers, inspirational figures, and celebrities of all kinds, Barbara Walters turns her gift for examination onto her own extraordinary life. Walters was the product of a turbulent childhood that featured a glamorous father who made and lost several fortunes as well as the companionship of a mentally challenged sister. Feelings of responsibility for her family played a large part in the choices she made as she grew up: the friendships she developed, the relationships she had, the marriages she tried to make work. Ultimately, thanks to her drive and a decent amount of luck, Walters made it to the top of a male-dominated industry. She was the first woman cohost of the Today show, the first female network news coanchor, the host and producer of countless top-rated Specials, the star of 20/20, and the creator and cohost of The View. She has not only interviewed the world's most fascinating figures, she has become a part of their world. These are just a few of the names that play a key role in her life, career, and book: Yasir Arafat, Warren Beatty, Menachem Begin, George H. W. Bush, George W. Bush, Jimmy Carter, Fidel Castro, Hugo Chávez, Bill and Hillary Clinton, Roy Cohn, the Dalai Lama, Princess Diana, Katharine Hepburn, King Hussein, Angelina Jolie, Henry Kissinger, Monica Lewinsky, Richard Nixon, Rosie O'Donnell, Christopher Reeve, Anwar Sadat, John Wayne . . . the list goes on. Barbara Walters has spent a lifetime auditioning: for her bosses at the TV networks, for millions of viewers, for the most famous people in the world, and even for her own daughter, with whom she has had a difficult but ultimately quite wonderful and moving relationship. This book, in some ways, is her final audition, as she fully opens up both her private and public lives. In doing so, she has given us a story that is heartbreaking and honest, surprising and fun, sometimes startling, and always fascinating.

barbara walters saddam hussein interview: Winning the Un-war Charles V. Peña, 2011-07
According to President Bush, the American people are safer as a result of invading Iraq. True, Saddam Hussein has been removed from power. But al Qaeda, the group that planned and carried out the attacks on September 11, remains at large. Meanwhile, the White House has conceded that Saddam Hussein had nothing to do with the attacks. Charles Peña argues that the war in Iraq is but one misstep in the Bush administration's global war on terror. Terrorism is simply a tactic, however, not an enemy. Trying to eradicate it is a quixotic quest that does not focus on those responsible for 9/11. Instead, the national security strategy should consist of three central elements: establishing homeland security against further attacks; dismantling the al Qaeda terrorist network; and enacting a foreign policy that does not attract new al Qaeda terrorists. This approach requires restructuring U.S. forces and ending Cold War-era commitments that distract from the current, pressing threat. It also requires ameliorating the negative consequences of an interventionist U.S. foreign policy, which creates incentives and opportunities for terrorists to target the United States. If we misdiagnose al Qaeda's motivations or focus military efforts on the wrong targets, then we run the risk that the war against the al Qaeda terrorist threat (and the radical Islamic ideology it represents) will become a broader war against the Islamic world that could last generations and cost countless lives. With a foreword by Michael Scheuer, the bestselling author of Imperial Hubris.

barbara walters saddam hussein interview: Am-Bushed! Leland Gregory, 2009-06-15
Readers just can't get enough tales of government gaffes, and no one spotlights stupidity like best-selling humorist Leland Gregory. President George W. Bush and his administration can't seem to stop goofing up, and Gregory can't help writing about it. Am-Bushed! is a hilarious rundown of the mishaps, mistakes, mispronunciations, malapropisms, and misunderestimations committed by Dubya and his administration, including: * You took an oath to defend our flag and our freedom, and you kept that oath underseas and under fire. --George W. Bush, Washington, D.C., January 10, 2006 * There's a-some of the greatest programs, initiatives come out of our faith-based programs or faith-based churches or synagogues or mosques. --George W. Bush, Washington, D.C., January 30, 2003 * The will of the United States can be shaken by suiciders . . . And suiciders who are willing to drive up to a Red Cross center, a center of international help and aid and comfort, and just kill . . . the strategy remains the same. The tactics to respond to more suiciders driving cars will alter on the ground. --George W. Bush, White House, October 28, 2003

barbara walters saddam hussein interview: Margaret Thatcher: Herself Alone Charles Moore, 2019-11-12 The masterful and definitive biography of Britain's first female prime minister reaches its climax with the story of her zenith and her fall, and "reveals a complex figure who had a lasting and lastingly controversial impact on her country and on history (The New York Times Book Review). How did Margaret Thatcher change and divide Britain? How did her model of combative female leadership help shape the way we live now? How did the woman who won the Cold War and three general elections in succession find herself pushed out by her own MPs? Charles Moore's full account, based on unique access to Margaret Thatcher herself, her papers, and her closest associates, tells the story of her last period in office, her combative retirement, and the controversy that surrounded her even in death. It includes the fall of the Berlin Wall, which she had fought for, and the rise of the modern EU that she feared. It lays bare her growing quarrels with colleagues and reveals the truth about her political assassination. Moore's three-part biography of Britain's most important peacetime prime minister paints an intimate political and personal portrait of the victories and defeats, the iron will but surprising vulnerability of the woman who dominated in an age of male power. This is the full, enthralling story.

barbara walters saddam hussein interview: If You Can't Be Better Than an N-Word, Then Who Can You Be Better Than? Thomas Sass, 2012-11 America's elites utilize the divide-and-conquer strategy, and with African Americans, they have found their first target. Centuries of brainwashing have instilled a superiority high in many whites and at the same time placed blacks in less-than positions. I intend to show to what extent Apartheidism and the less-than culture affect blacks in several different environments, such as how the criminal justice system is used to marginalize and criminalize blacks at rates disproportionate to their population. Even the sports world can be more problematic for blacks than for non-blacks. I will present people and events that will show the double standards society has been led to not only accept but to expect, and just how easily we seem to have been manipulated. Most, and perhaps none of which could have been so relatively easily accomplished if the drug of superiority did not cloud our perceptions.

barbara walters saddam hussein interview: The Colored Boys John Hunter Parker, 2017-03-08 The Colored Boys is Top Gun II with all the thrills, dangers, and aerial exploits of the first, only better. This is the story of aviators who fly F-14 Tomcats, amazing, complex, and phenomenal machines possessing technology that was light-years ahead of their time. Two black men from very different backgrounds believe that they can break into the demanding world of naval tactical aviation and learn to fly, operate, and master these machines and the technology they possess. While young and naive, these men are also amazingly confident, determined, and driven type-A personalities who take on the challenges that their chosen profession and dynamic careers demand. Told through their eyes, their personalities, and their experiences, we follow them as they evolve from terrified aviation officer candidates to commissioned officers into seasoned aviators. The Colored Boys follows them from their induction in Naval Officer Candidates School, through the myriad of challenges, terror, and joys of flight school, the demands of the replacement air group, and then to the demands of squadron life in the fleet. They train, develop, teach, and grow, and then they are thrust into the life-and-death struggles of war in the Persian Gulf. There, they enter combat and must fight for their survival in a war that tests their mettle as human beings, as aviators, and as men. The Colored Boys is also about the navythe real navy, a beloved but highly traditionalized institution that must grapple with the integration of these men into its culture, into its strict caste system of officers, persons commissioned and positioned to command sailors, and the men and women they command and serve who sometimes unconsciously, sometimes quite consciously, resist change and have deeply ingrained revulsion, prejudices, and aversion to black men that they sometimes don't even recognize or believe exists within themselves. This is the story of how these two men face, tackle, and overcome the invisible and mostly covert but highly prevalent racism and still excel in the already highly demanding world of naval aviation. This is the story of these

phenomenal flying machines, the amazing men who fly them, and the demanding missions that they perform daily as they serve this nation as members of the United States Navy. Two African American men who fight to prove to others, to the navy, and ultimately to themselves that they do indeed belong, that they can hack it, that they too have the right stuff. They are many things to many people but ultimately they prove that they are not merely black men, not just commissioned officers, and not just Americans. They are naval aviators.

barbara walters saddam hussein interview: Embedded Danny Schechter, 2013-07-02 There were two wars going on in Iraq--one fought with armies of soldiers, bombs, and fearsome military force. The other was fought alongside it with cameras, satellites, armies of journalists, and propaganda techniques. One war was rationalized as an effort to find and disarm WMDs--Weapons of Mass Destruction; the other was carried out by even more powerful WMDs, Weapons of Mass Deception. Veteran journalist and media watcher Danny Schechter, a former ABC and CNN producer, monitored and now analyzes the cheerleading for a war in which reporting was sanitized, staged, and suppressed. The author of *Media Wars: News at a Time of Terror*, *The More You Watch the Less You Know*, and *News Dissector*, brings an insider's knowledge based on thirty years in journalism with an outsider's perspective to critiquing media coverage. Throughout the war he was self-embedded at *Mediachannel.org*, the world's largest online media issues network. Schechter's insightful, wide-ranging critique of the American media's war coverage targets the way in which a virtual merger between the Pentagon and the media produced a war spectacle that the American public was primed to see, media collusion in the campaign to discredit the UN, rightwing liberation theology as war propaganda, the cozy relationship between news anchors and retired officers hired as military analysts, the controversies over Peter Arnett and Geraldo Rivera, the looting of Baghdad, the lack of media focus on civilian casualties, the disparities in coverage between U.S. and foreign media, and more. Schechter's disturbing indictment of the major media as purveyors of infotainment instead of news will serve as a wake-up call to journalists, media critics, and everyone who cares about a well-informed citizenry as the basis of democracy.

barbara walters saddam hussein interview: Across the Aisle Gillespie V. Montgomery, Darryl W. Kehrer, Michael McGrevey, 2010-01-01 Using gentle humor, some 450 visuals, and debate drawn from actual legislative events, the late U.S. Congressman G. V. Sonny Montgomery helps readers relive the Montgomery GI Bill's 1987 enactment, while learning each step of the way. *Across the Aisle's* extensive illustrative material brings the legislative process alive, as readers travel the historic legislative road with Congressman Montgomery himself as escort, storyteller, mentor, and colleague Congressman Montgomery served his Mississippi constituents for thirty years. Twenty-eight of those years included service on the House Committee on Veterans' Affairs, fourteen years as its chairman. Indeed the Montgomery GI Bill has proven to help America on many fronts, including post-secondary education and training, national security, military recruiting, workforce and youth development, economic competitiveness, and civic leadership Montgomery's unique first-person account brings Washington, D.C., and lawmaking alive with enduring lessons in leadership, persuasion, civility, and that timeless virtue--perseverance.

Timmerman, 1991 Timmerman details Iraq's purchases of strategic weapons--including chemical weapons--and lays the blame for their arms build-up in the laps of the Western allies who supplied them. barbara walters saddam hussein interview: After Iraq Charles W. Kegley, Gregory A. Raymond, 2007 As the year 2001 unfolded, the United States stood at the apex of global power, possessing unrivalled military capabilities, a vibrant economy, and--most of all--great self-confidence about its security. The terrorist attacks of 9/11 shattered America's prevailing illusions of invulnerability, prompting the world's sole superpower to embark on a revolutionary national strategy that led to a preventive war against Iraq. Will the United States be safer and more secure as a result? This book shows why America's new assertively unilateral foreign policy will actually create perils for the next generation of Americans. Written by two seasoned scholars, After Iraq conducts a sweeping survey of America's present position in the global arena and identifies the opportunities and risks that the United States will likely face once the war in Iraq draws to a close. Kegley and Raymond provide an insightful overview of the U.S. response to the unconventional threats posed by global terrorism as well as a searching assessment of the challenges created by the rise of China and other emerging competitors. They argue that the current course of American foreign policy will harm the country by setting dangerous precedents that undermine the moral and legal restraints--which were built painstakingly over the past century--on when and how states may use force. Drawing upon a rich array of historical parallels and empirical evidence, the book illuminates instances in which previous great powers embarked on similar self-defeating strategies. Like the U.S. today, these states once stood at the pinnacle of world power. But due to misperceptions about what they could accomplish with unilateral, preventive uses of military force, they made short-run decisions that undermined their long-term strategic interests. With Americans facing questions about how to combat global terrorism, how to diffuse the nuclear threats of Iran and North Korea, how to adjust to the growing power of China and India, and how to repair relations with traditional allies, After Iraq charts a path for restoring America's reputation and leadership in the world to strengthen both U.S. and international security in the turbulent decades ahead.

barbara walters saddam hussein interview: The Legitimate Use of Military Force Howard M. Hensel, 2016-03-03 Throughout human history, scholars, statesmen and military leaders have attempted to define what constitutes the legitimate use of armed force by one community against another. Moreover, if force is to be used, what normative guidelines should govern the conduct of warfare? Based upon the assumption that armed conflict is a human enterprise and therefore subject to human limitations, the Western 'just war tradition' represents an attempt to provide these guidelines. Following on from the success of Hensel's earlier publication, The Law of Armed Conflict, this volume brings together an internationally recognized team of scholars to explore the philosophical and societal foundations of just war tradition. It relates the principles of jus ad bellum to contemporary issues confronting the global community and explores the relationship between the principles of jus in bello and the various principles embodied in the customary law of armed conflict. Applying an interdisciplinary approach to analyzing and assessing the links between just war and the norms of behaviour, the book provides a valuable contribution to international law, international relations and national security studies.

barbara walters saddam hussein interview: George W. Bush and the Redemptive Dream Dan P. McAdams, 2010-11-24 George W. Bush remains a highly controversial figure, a man for whom millions of Americans have very strong feelings. Dan McAdams' book offers an astute psychological portrait of Bush, one of the first biographies to appear since he left office as well as

the first to draw systematically from personality science to analyze his life. McAdams, an international leader in personality psychology and the narrative study of lives, focuses on several key events in Bush's life, such as the death of his sister at age 7, his commitment to sobriety on his 40th birthday, and his reaction to the terrorist attacks of September 11, and his decision to invade Iraq. He sheds light on Bush's life goals, the story he constructed to make sense of his life, and the psychological dynamics that account for his behavior. Although there are many popular biographies of George W. Bush, McAdams' is the first true psychological analysis based on established theories and the latest research. Short and focused, written in an engaging style, this book offers a truly penetrating look at our forty-third president.

barbara walters saddam hussein interview: Letters of the Times James W. Hamilton, 2010 A collection of letters to the editor of the New York Times and other publications covering a wide range of events and issues from the mid-1960s to 2010. A large number have been published; many have not. The material raises vital questions about the behavior of the press in a democracy, not least how the newspaper of record determines editorially without fear or favor what news is fit to print and the emphasis to be placed upon a particular story.

barbara walters saddam hussein interview: The Dual State Eric Wilson, 2016-03-23 This volume presents a practical demonstration of the relevance of Carl Schmitt's thought to parapolitical studies, arguing that his constitutional theory is the one best suited to investing the 'deep state' with intellectual and doctrinal coherence. Critiquing Schmitt's work from a variety of intellectual perspectives, the chapters discuss current parapolitical reality within the domain of criminology, the parapolitical nature of both the dual state and the national security state corporate complex. Using the USA as a prime example of the world's current dual or 'deep political state', the criminogenic dimensions of the parapolitical systems of post 9/11 America are discussed. Using case studies, the dual state is examined as the causal factor of inexplicable parapolitical events within both the developed and developing world, including Sweden, Canada, Italy, Turkey, and Africa.

barbara walters saddam hussein interview: The Encyclopedia of Middle East Wars [5 volumes] Spencer C. Tucker, 2010-10-08 This in-depth study of U.S. involvement in the modern Middle East carefully weighs the interplay of domestic, cultural, religious, diplomatic, international, and military events in one of the world's most troubled regions. barbara walters saddam hussein interview: Trauma Journalism Mark H. Massé, 2011-10-06 The role of journalists in covering trauma and tragedy isn't new. Witnessing acts of violence, destruction and terror has long been the professional responsibility of countless print and broadcast reporters and photographers. But what is new is a growing awareness of the emotional consequences of such coverage on the victims, their families and loved ones, their communities, and on the journalists whose job it is to tell these stories. *Trauma Journalism* personalizes this movement with in-depth profiles of reporters, researchers and trauma experts engaged in an international effort to transform how the media work under the most difficult of conditions. Through biographical sketches concerning several significant traumatic events (Oklahoma City bombing, Columbine school tragedy, 9/11, Iraq War, the South Asian tsunami, Hurricane Katrina), students and working

reporters will gain insights into the critical components of contemporary journalism practices affecting news judgment, news gathering techniques, as well as legal and ethical issues. Trauma Journalism calls for the creation - through ongoing education - of a culture of caring among journalists worldwide.

barbara walters saddam hussein interview: Watchdogs of Democracy? Helen Thomas, 2006-12-01 In the course of more than sixty years spent covering Washington politics, Helen Thomas has witnessed a raft of fundamental changes in the way news is gathered and reported. Gone are the days of frequent firsthand contact with the president. Now, the press sees the president only at tightly controlled and orchestrated press conferences. In addition, Thomas sees a growing -- and alarming -- reluctance among reporters to question government spokesmen and probe for the truth. The result has been a wholesale failure by journalists to fulfill what is arguably their most vital role in contemporary American life -- to be the watchdogs of democracy. Today's journalists, according to Thomas, have become subdued, compromised lapdogs. Here, the legendary journalist and bestselling author delivers a hard-hitting manifesto on the precipitous decline in the quality and ethics of political reportage -- and issues a clarion call for change. Thomas confronts some of the most significant issues of the day, including the jailing of reporters, the conservative swing in television news coverage, and the administration's increased insistence on managed news. But she is most emphatic about reporters' failure to adequately question President George W. Bush and White House spokesmen about the lead-up to the invasion of Iraq, and on subjects ranging from homeland security to the economy. This, she insists, was a dire lapse. Drawing on her peerless knowledge of journalism, Washington politics, and nine presidential administrations, as well as frank interviews with leading journalists past and present, Thomas provides readers with a rich historical perspective on the roots of American journalism, the circumstances attending the rise and fall of its golden age, and the nature and consequences of its current shortcomings. The result is a powerful, eye-opening discourse on the state of political reportage -- as well as a welcome and inspiring demand for meaningful and lasting reform.

barbara walters saddam hussein interview: The iPINIONS Journal Anthony Livingston Hall, 2021-03-14 ANTHONY L. HALL takes aim at the global events of 2020 with a unique and refreshing perspective. Some of the topics in this volume include: Governments ordering lockdowns to combat Covid-19 "Telling people to lockdown to combat Covid makes about as much sense as it would've been to tell people to stop having sex to fight HIV. ... Mandating wearing masks, like wearing seatbelts (or promoting the use of masks, like the use of condoms), would have been a lot

cheaper and more effective." Trump failing to defend America against Russian cyber attacks "America is now a certifiably dysfunctional, dystopian, and defenseless mess. Superpower?! Hell, even the Roman Empire was never this, er, messed up before the fall. Evidently that 'shining city on a hill' was just the flickering embers of a supernova." Kim declaring nuclear deal with Trump a bust "Kim Jong-un is feeling like a woman scorned. Never mind that he behaved throughout his affair with Donald Trump like a shrew—too uptight to screw." Harry and Meghan announcing split from royal family "Most Britons will feel about Meghan breaking up the royals the way they felt about Yoko breaking up the Beatles." 'The Last Dance' revealing how Bulls paid Jordan like a king, Pippen like a pauper "Michael is clearly the NBA's GOAT. Unfortunately, Pippen is arguably its greatest goat of all time." Chinese leaders quarantining millions to contain Covid-19 "Practice from quarantining millions of Uyghur Muslims for years in religious-cleansing camps means that they are doing so in this case with Nazi-like efficiency." Democrats trying to impeach Trump "Even if lead House manager Rep. Adam Schiff were Christ incarnate, he would still be unable to break the cult-like loyalty Republicans show their two-legged golden calf." Republicans bending over to be cuckolded by Trump "The more he humiliates white Republican men the more they like him. Hell, some like Senator Ted Cruz of Texas even like him when he humiliates their wives, which puts a fetishistic twist on cuckoldry that is just too perverse for words." White cops patrolling Black communities "It's a curious thing that Black men seem so willing to cede that role (of protecting their own) to white men, who seem all too eager to patrol Black communities like invading soldiers." Mary Trump's tell-all selling like hotcakes "Given the egregious way Donald exaggerates his wealth, the irony cannot be lost on Mary that this book could make her the richest Trump of them all. It might not be revenge, but it would be sweet."

barbara walters saddam hussein interview: Technology and the Proliferation of Nuclear Weapons Richard Kokoski, 1995 The author focuses on the critical developments, technological in particular, which are currently posing a threat to the nuclear non-proliferation regime. Crucial technologies affecting nuclear weapon proliferation and their potential ramifications for the nuclear non-proliferation regimes as a whole are examined and potential policy options which could ameliorate or eliminate the resulting dangers are analysed and assessed. Developments and problems raised by the Iraqi and North Korean nuclear programmes receive special attention. In particular, recent efforts in strengthening export control regulations on nuclear and dual-use technology and equipment and in improving nuclear safeguards are described and their impact analysed. Of lasting relevance in the non-proliferation context, this book is of particular relevance in the light of the indefinite extension of the Non-Proliferation Treaty.
