big 12 basketball championship history: Basketball in the Big 12 Conference Michael A. Sommers, 2008-01-15 The Big 12 conference has had at least half of its basketball teams in the postseason every year in its history (the conference came into being on February 25, 1994). The Big 12, which consists of schools from central United States, is split into North (University of Colorado, Iowa State University, University of Kansas, Kansas State University, University of Missouri, and the University of Nebraska) and South (Baylor University, University of Oklahoma, Oklahoma State University, University of Texas, Texas A&M University, and Texas Tech University). Basketball in the Big 12 Conference is packed with a wealth of fascinating information and statistics about one of the nation's most popular sports and most successful college conferences, including conference history; teams and mascots; key player and coach profiles; conference rivalries; and important game and tournament highlights.

big 12 basketball championship history: The Big East Dana O'Neil, 2023-02-28 The definitive, compulsively readable story of the greatest era of the most iconic league in college basketball history—the Big East “This book, full of long-standing rivalries, unmatched moments in the lives of coaches and players, and juicy insider gossip, is, like the game of basketball, a ton of fun.”—Philadelphia magazine The names need no introduction: Thompson and Patrick, Boeheim and the Pearl, and of course Gavitt. And the moments are part of college basketball lore: the Sweater Game, Villanova Beats Georgetown, and Six Overtimes. But this is the story of the Big East Conference that you haven't heard before—of how the Northeast, once an afterthought, became the epicenter of college basketball. Before the league's founding, East Coast basketball had crowned just three national champions in forty years, and none since 1954. But in the Big East's first ten years, five of its teams played for a national championship. The league didn't merely inherit good teams; it created them. But how did this unlikely group of schools come to dominate college basketball so quickly and completely? Including interviews with more than sixty of the key figures in the conference's history, The Big East charts the league's daring beginnings and its incredible rise. It transports fans inside packed arenas to epic wars fought between transcendent players, and behind locker-room doors where combustible coaches battled even more fiercely for a leg up. Started on a handshake and a prayer, the Big East carved an improbable arc in sports history, an

ensemble of Catholic schools banding together to not only improve their own stations but rewrite the geographic boundaries of basketball. As former UConn coach Jim Calhoun eloquently put it, "It was Camelot. Camelot with bad language."

big 12 basketball championship history: *The Road to J.O.Y.* Scott Drew, 2022-05-03 Scott Drew, head basketball coach of the NCAA National Championship-winning Baylor Bears, rebuilt a program mired in scandal by instilling a culture of putting Jesus first. *The Road to J.O.Y.* is packed with leadership and coaching lessons that can equip any leader to make their team a championship team. When Drew accepted the head coaching position at Baylor in 2003, the job was arguably the worst in all of college sports. The men's basketball team had been disgraced by scandal: one player murdered a teammate, and the head coach who lied about the details tried to conceal illegal cash payments to his players, including a false allegation that the murdered player had been dealing drugs. It was an unprecedented story and a national embarrassment. Still, Coach Drew had a confident vision of what the program could be, even in the face of such adversity, and he guided his team to the pinnacle of success—Baylor's first National Championship—while leading with, and living out, his faith. *The Road to J.O.Y.* shares: Biblical principles that have helped Coach Scott Drew lead well through challenging times An insider's look at the others-first culture that spurred Baylor's rebound Coach's wisdom for investing in others and creating a successful organization The leadership lessons Drew has learned from growing up in a famous basketball family and years of coaching How faith is the foundation for everything Drew does With equal parts inspirational memoir and personal and professional growth, *The Road to J.O.Y.* is perfect for anyone who is looking to better live out their faith, lead a team, achieve a goal, or mentor others.

big 12 basketball championship history: *The Baron and the Bear* David Kingsley Snell, 2016-12-01 In the 1966 NCAA basketball championship game, an all-white University of Kentucky team was beaten by a team from Texas Western College (now UTEP) that fielded only black players. The game, played in the middle of the racially turbulent 1960s—part David and Goliath in short pants, part emancipation proclamation of college basketball—helped destroy stereotypes about black athletes. Filled with revealing anecdotes, *The Baron and the Bear* is the story of two intensely passionate coaches and the teams they led through the ups and downs of a college basketball season. In the twilight of his legendary career, Kentucky's Adolph Rupp ("The Baron of the Bluegrass") was seeking his fifth NCAA championship. Texas Western's Don Haskins ("The Bear" to his players) had been coaching at a small West Texas high school just five years before the championship. After this history-making game, conventional wisdom that black players lacked the discipline to win without a white player to lead began to dissolve. Northern schools began to abandon unwritten quotas limiting the number of blacks on the court at one time. Southern schools, where athletics had always been a whites-only activity, began a gradual move toward integration. David Kingsley Snell brings the season to life, offering fresh insights on the teams, the coaches, and the impact of the game on race relations in America.

big 12 basketball championship history: *The Secret Game* Scott Ellsworth, 2015-03-10

Winner of the 2016 PEN/ESPN Award for Literary Sports Writing The true story of the game that never should have happened--and of a nation on the brink of monumental change In the fall of 1943, at the little-known North Carolina College for Negroes, Coach John McLendon was on the verge of changing basketball forever. A protégé of James Naismith, the game's inventor, McLendon taught his team to play the full-court press and run a fast break that no one could catch. His Eagles would become the highest-scoring college team in America--a basketball juggernaut that shattered its opponents by as many as sixty points per game. Yet his players faced danger whenever they traveled backcountry roads. Across town, at Duke University, the best basketball squad on campus wasn't the Blue Devils, but an all-white military team from the Duke medical school. Composed of former college stars from across the country, the team dismantled everyone they faced, including the Duke varsity. They were prepared to take on anyone--until an audacious invitation arrived, one that was years ahead of anything the South had ever seen before. What happened next wasn't on anyone's schedule. Based on years of research, *The Secret Game* is a story of courage and determination, and of an incredible, long-buried moment in the nation's sporting past. The riveting, true account of a remarkable season, it is the story of how a group of forgotten college basketball players, aided by a pair of refugees from Nazi Germany and a group of daring student activists, not only blazed a trail for a new kind of America, but helped create one of the most meaningful moments in basketball history.

big 12 basketball championship history: *Ramblers* Michael Lenahan, 2013-02-18 Today basketball is played "above the rim" by athletes of all backgrounds and colors. But 50 years ago it was a floor-bound game, and the opportunities it offered for African-Americans were severely limited. A key turning point was 1963, when the Loyola Ramblers of Chicago took the NCAA men's basketball title from Cincinnati, the two-time defending champions. It was one of Chicago's most memorable sports victories, but *Ramblers* reveals it was also a game for the history books because of the transgressive lineups fielded by both teams. *Ramblers* is an entertaining, detail-rich look back at the unlikely circumstances that led to Loyola's historic championship and the stories of two Loyola opponents: Cincinnati and Mississippi State. Michael Lenahan's narrative masterfully intertwines these stories in dramatic fashion, culminating with the tournament's final game, a come-from-behind overtime upset that featured two buzzer-beating shots. While on the surface this is a book about basketball, it goes deeper to illuminate how sport in America both typifies and drives change in the

broader culture. The stark social realities of the times are brought vividly to life in Lenehan's telling, illustrating the challenges faced in teams' efforts simply to play their game against the worthiest opponents.

big 12 basketball championship history: Eleven Rings Phil Jackson, Hugh Delehanty, 2013-05-21 Through candor and comprehensiveness, Jackson writes a convincing revisionist take, in which he emerges as an excellent coach . . . highly readable . . . reflects Jackson's polymathy. —The New York Times Book Review Part sports memoir, part New Age spirit quest, part pseudo-management tract . . . But the primary thing with Jackson—as with all the old bards, who were also known for repeating themselves—is the voice. —Sam Anderson, The New York Times

Magazine A New York Times Bestseller The inside story of one of basketball's most legendary and game-changing figures During his storied career as head coach of the Chicago Bulls and Los Angeles Lakers, Phil Jackson won more championships than any coach in the history of professional sports. Even more important, he succeeded in never wavering from coaching his way, from a place of deep values. Jackson was tagged as the “Zen master” half in jest by sportswriters, but the nickname speaks to an important truth: this is a coach who inspired, not goaded; who led by awakening and challenging the better angels of his players’ nature, not their egos, fear, or greed. This is the story of a preacher’s kid from North Dakota who grew up to be one of the most innovative leaders of our time. In his quest to reinvent himself, Jackson explored everything from humanistic psychology and Native American philosophy to Zen meditation. In the process, he developed a new approach to leadership based on freedom, authenticity, and selfless teamwork that turned the hypercompetitive world of professional sports on its head. In *Eleven Rings*, Jackson candidly describes how he:

- Learned the secrets of mindfulness and team chemistry while playing for the champion New York Knicks in the 1970s
- Managed Michael Jordan, the greatest player in the world, and got him to embrace selflessness, even if it meant losing a scoring title
- Forged successful teams out of players of varying abilities by getting them to trust one another and perform in sync
- Inspired Dennis Rodman and other “uncoachable” personalities to devote themselves to something larger than themselves
- Transformed Kobe Bryant from a rebellious teenager into a mature leader of a championship team.

Eleven times, Jackson led his teams to the ultimate goal: the NBA championship—six times with the Chicago Bulls and five times with the Los Angeles Lakers. We all know the legendary stars on those teams, or think we do. What *Eleven Rings* shows us, however, is that when it comes to the most important lessons, we don’t know very much at all. This book is full of revelations: about fascinating personalities and their drive to win; about the wellsprings of motivation and competition at the highest levels; and about what it takes to bring out the best in ourselves and others.

big 12 basketball championship history: March 1939 Terry Frei, 2014-02-06 In 1939, the Oregon Webfoots, coached by the visionary Howard Hobson, stormed through the first NCAA basketball tournament, which was viewed as a risky coast-to-coast undertaking and perhaps only a one-year experiment. Seventy-five years later, following the tournament’s evolution into a national obsession, the first champions are still celebrated as “The Tall Firs.” They indeed had astounding height along the front line, but with a pair of racehorse guards who had grown up across the street from each other in a historic Oregon fishing town, they also played a revolutionarily fast-paced game. Author Terry Frei’s track record as a narrative historian in such books as the acclaimed *Horns, Hogs, and Nixon Coming*, plus a personal connection as an Oregon native whose father coached football at the University of Oregon for seventeen seasons, makes him uniquely qualified to tell this story of the first tournament and the first champions, in the context of their times. Plus, Frei long has been a fan of Clair Bee, the Long Island University coach who later in life wrote the *Chip Hilton Sports Series* books, mesmerizing young readers who didn’t know the backstory told here. In 1939, the Bee-coached LIU Blackbirds won the NCAA tournament’s rival, the national invitation tournament in New York—then in only its second year, and still under the conflict-of-interest sponsorship of the Metropolitan Basketball Writers Association. Frei assesses both tournaments and, given the myths advanced for many years, his conclusions in many cases are surprising. Both events unfolded in a turbulent month when it was becoming increasingly apparent that Hitler's belligerence would draw Europe and perhaps the world into another war . . . soon. Amid heated debates over the extent to which America should become involved in Europe's affairs this time, the men playing in both tournaments wondered if they might be called on to serve and fight. Of course, as some of the Webfoots would demonstrate in especially notable fashion, the answer was yes. It was a March before the Madness.

big 12 basketball championship history: The Unlikeliest Champion Aaron Torres, 2011-12-13 Entering the 2011 college basketball season, the only expectations on the UConn Huskies basketball team were no expectations at all. Just two years after reaching the Final Four, the club was young, mired in an NCAA investigation, and seemingly at the bottom of the college basketball barrel. Not only were they picked to finish tenth in their own conference, UConn didn't receive a single vote in either preseason poll. A once proud program had hit rock-bottom. Fortunately, no one told superstar Kemba Walker or his young teammates. From the beginning, this group of Huskies was different. They were hungry. They played for the name on the front of the jersey, instead of the back. They cared only about wins and losses, not ancillary stats in the box score. And it showed as the Huskies took their fans, and the college basketball world as a whole on a wild six-month ride. It started with an epic win at the prestigious Maui Invitational, through a historic five wins in five days at the Big East Tournament, and eventually culminating with a National Championship to end the year. Join author Aaron Torres as he takes you through the ups and downs of a college basketball season, and team that will resonate among fans forever. The 2011 UConn Huskies may not go down as the greatest team in the history of college basketball. But they just might be the best story ever.

Investigators found that for more than five years Jones and a small ring of university officials had conspired to loot the university of \$2 million in tickets, reselling them for \$3-5 million. In what was perhaps the biggest scandal in college sports history, all seven members of the Kansas Ticket Gang pleaded guilty to RICO Act indictments. Five went to prison--two were given probation for turning state's evidence.

big 12 basketball championship history: Bill Self Bill Self, John Rohde, 2008
The 2007-2008 Kansas Jayhawks capped off one of the program's most storied seasons by winning its fifth national championship, and first in 20 years. The Jayhawks' success in 2007-2008 has been credited to total team effort and the inspiring leadership of head coach Bill Self. During his relatively short head coaching career, Self has established himself as one of college basketball's best by leading Oral Roberts to new frontiers, guiding Tulsa to its best season in school history, turning Illinois into a Big Ten powerhouse and now taking Kansas from a perennially great program to the best in the nation. In Bill Self's first authorized book: *BILL SELF: At Home in the Phog*, Self and those who know him best offer an inside look at his journey into becoming one of the game's most respected and most sought-after coaches. Self explains how he is living a dream - not only is he a head coach, but he was selected to be the steward of what James Naismith and Phog Allen created. He describes the excitement of reaching the pinnacle - leading the Jayhawks to a national title. He gives minute-by-minute details of the contest that sent KU to the national title game. Self has achieved his dream of becoming a head coach. That much is evident. Even though he never dreamed of being the head coach at the University of Kansas, he did aspire to lead a college basketball team to greatness, which is exactly what he is doing. big 12 basketball championship history: Once There Were Giants Scott Johnson, Julie Kistler, 2002
Everyone loves a story about a little guy overcoming the odds and winning it big. Maybe that's why Hebron High School's rise to the state championship in 1952 struck a chord with so many fans across the state and the nation. But no victory comes without sacrifice, without hard work, without a little drama. The Hebron story mixes talented twins, spurred on by a pro-athlete

older brother; a reed-thin, 6-10½ center, coming late to basketball but getting better with every game; two hot-handed outside shooters overcoming challenges of their own; and a Little Napoleon of a coach, utterly focused on putting together just the right ingredients to win a state championship and more importantly, to best his mentor. Desire, devotion, dedication--it all came together for the Green Giants in 1952. They did what it took. They won it all.

big 12 basketball championship history: Shooting Stars LeBron James, 2023-08-01 The celebrated memoir from LeBron James - a poignant, thrilling tale of the power of teamwork to transform young lives, including his own A book that will incredibly move and inspire you." —Jay-Z A heartwarming story of boys who became men, teammates who became brothers, players who became champions, wonderfully told through the maturing eyes of basketball's greatest star. — John Grisham Before LeBron James was an NBA superstar, he was just a kid from Akron, Ohio, who loved to play basketball on a team called the Shooting Stars. This is the story of how this motley group of ten-year-olds grew into a team and became men together - surviving the challenges of inner city America and enduring jealousy, hostility, exploitation, and the consequences of their own overconfidence in their quest to win a national championship. Shooting Stars is a poignant, thrilling tale of the power of teamwork to transform young lives.

big 12 basketball championship history: The 50 Year Seduction Keith Dunnivant, 2004-10-01 In *The Fifty-Year Seduction*, Keith Dunnivant shows how television helped shape the modern sport--on and off the field. For more than a half century, television has played a primary role in securing college football's place as one of America's most popular spectator sports. But it has also been the common denominator in the sport's rise as a big business. Television, which multiplied the number of people who cared about the game, simultaneously increased the stakes. The colleges, who once feared television's ability to create free tickets, gradually became addicted to its charms. Through the years, the medium manufactured money, greed, dependence, and envy; altered the recruiting process, eventually forcing the colleges to compete with the irresistible force of National Football League riches; aided the National Collegiate Athletic Association's explosion from impotent union to massive bureaucracy; manipulated the rise and fall of the College Football Association; fomented the realignment of conferences; and seized control of the post-season bowl games, including the formation of the lucrative and controversial Bowl Championship Series. In painstaking detail, the author chronicles five decades of tension and conflict, from the 1951 television dispute that empowered the modern NCAA to the inevitable backlash, culminating with the landmark Supreme Court decision that set the stage for the conference-swapping machinations of the 1990s and beyond.

In honest and telling passages about virtually every aspect of life, Coach shares his personal philosophy on family, achievement, success, and excellence. Raised on a small farm in south-central Indiana, he offers lessons and wisdom learned throughout his career at UCLA, and life as a dedicated husband, father, and teacher. These lessons, along with personal letters from Bill Walton, Denny Crum, Kareem Abdul-Jabbar, and Bob Costas, among others, have made *Wooden: A Lifetime of Observations and Reflections on and off the Court* an inspirational classic.

Basketball, from the late-1950s through the mid-1980s, producing 25-30 division I players. Coach Gus Alfieri took his 1973-1974 St. Anthony's High School Basketball Team and used it as a microcosm of the era.
