Bias persists in organizations and society. Despite efforts that have been made in the last few decades, gender and racioethnic equity still hasn't been achieved. What's worse, Black, Indigenous, Asian, and Latina women are being held back more than their White counterparts. We need to change how we strive for equity. We need *Shared Sisterhood*, and anyone, regardless of gender, can join in. Professor Tina Opie first started *Shared Sisterhood* as a movement

to drive gender and racial equity in organizations. Since then, she and professor Beth A. Livingston have worked together to spread the word to leaders across organizations, with thousands of followers joining the cause. In this book, they explain how to use vulnerability, trust, empathy, and risk-taking to build Shared Sisterhood and break down three key parts of the process: Dig into your own assumptions around race/ethnicity, gender, and power Bridge the divide between women of all backgrounds through authentic relationships Advance all women across the organization and beyond Balancing a mix of history, research, and real-life examples—including the authors' own experiences—this book encourages everyone to join Shared Sisterhood and advance equity for all.

alencia johnson political strategist: The Embedded Firm Cynthia A. Williams, Peer Zumbansen, 2011-08-11 The globalization of capital markets since the 1980s has been accompanied by a vigorous debate over the convergence of corporate governance standards around the world towards the shareholder model. But even before the financial and economic crisis of 2008/2009, the dominance of the shareholder model was challenged with regard to persisting divergences and national differences in corporate law, labor law and industrial relations. This collection explores this debate at an important crossroads, echoing Karl Polanyi's famous observation in 1944 of the disembeddedness of the market from society. Drawing on pertinent insights from scholars, practitioners and regulators in corporate and labor law, securities regulation as well as economic sociology and management theory, the contributions shed important light on the empirical effects on the economy of the shift to shareholder primacy, in light of a comprehensive reconsideration of the global context, policy goals and regulatory forms which characterize market governance today.

libro si propone di esplorare le opportunità, le criticità e le prospettive offerte dai metodi di ricerca qualitativi con specifico riferimento al tema degli intangibles, capitale intellettuale e reporting integrato. Nonostante l'interesse crescente mostrato dalla teoria, i benefici attribuiti alla misurazione, alla gestione e al reporting degli intangibili e del capitale intellettuale non sono pienamente riconosciuti nella pratica. Da qui nasce l'esigenza di un approccio di ricerca rigoroso e "performativo". Adottare un approccio performativo implica studiare la misurazione, la gestione e il reporting in azione, all'interno e tra le organizzazioni, per capire in che modo le risorse di conoscenza, le persone, i processi e le relazioni vengono mobilitate e attivate per creare valore. Per offrire una risposta a questi interrogativi, questo libro presenta i risultati di ricerca presentati dagli studiosi in occasione del SIDREA International Workshop (SIW 2017) sul tema Ricerca qualitativa in beni immateriali, capitale intellettuale e pratiche integrate di reporting. Opportunità, criticità e prospettive future, organizzato dal Dipartimento di Studi Aziendali, Università Roma TRE e dal Dipartimento di Gestione, Università Politecnica delle Marche.

alencia johnson political strategist: To Rule the Waves Bruce Jones, 2021-09-14 From a brilliant Brookings Institution expert, an "important" (The Wall Street Journal) and "penetrating historical and political study" (Nature) of the critical role that oceans play in the daily struggle for global power, in the bestselling tradition of Robert Kaplan's *The Revenge of Geography*. For centuries, oceans were the chessboard on which empires battled for supremacy. But in the nuclear age, air power and missile systems dominated our worries about security, and for the United States, the economy was largely driven by domestic production, with trucking and railways that crisscrossed the continent serving as the primary modes of commercial transit. All that has changed, as nine-tenths of global commerce and the bulk of energy trade is today linked to sea-based flows. A brightly painted forty-foot steel shipping container loaded in Asia with twenty tons of goods may arrive literally anywhere else in the world; how that really happens and who actually profits from it show that the struggle for power on the seas is a critical issue today. Now, in vivid, closely observed prose, Bruce Jones conducts us on a fascinating voyage through the great modern ports and naval bases—from the vast container ports of Hong Kong and Shanghai to the vital naval base of the American Seventh Fleet in Hawaii to the sophisticated security arrangements in the Port of New York. Along the way, the book illustrates how global commerce works, that we are amidst a global naval arms race, and why the oceans are so crucial to America's standing going forward. As Jones reveals, the three great geopolitical struggles of our time—for military power, for economic dominance, and over our changing climate—are playing out atop, within, and below the world's oceans. The essential question, he shows, is this: who will rule the waves and set the terms of the world to come?

alencia johnson political strategist: *LaToya Ruby Frazier* LaToya Ruby Frazier, 2016 *The Notion of Family*, offers an incisive exploration of the legacy of racism and economic decline in America's small towns, as embodied by her hometown of Braddock, Pennsylvania. The work also considers the impact of that decline on the community and on her family, creating a statement both personal and truly political-- an intervention in the histories and narratives of the region. Frazier has compellingly set her story of three generations--her Grandma Ruby, her mother, and herself--against larger questions of civic belonging and responsibility. The work documents her own struggles and interactions with family and the expectations of community, and includes the documentation of the demise of Braddock's only hospital, reinforcing the idea that the history of a place is frequently written on the body as well as the landscape.--Publisher's website.

alencia johnson political strategist: *The Opposite of Hate* Sally Kohn, 2018-04-10 "A stunning debut by a truly gifted writer—an eye-opening read for both liberals and conservatives—and it could not come at a better time."—Adam Grant, New York Times bestselling author of *Option B*, with Sheryl Sandberg What is the opposite of hate? As a progressive commentator on Fox News and now CNN, Sally Kohn has made a career out of bridging intractable political differences and learning how to talk respectfully with people whose views she disagrees with passionately. Her viral TED Talk on the need to practice emotional—rather than political—correctness sparked a new way of considering how often we amplify our differences and diminish our connections. But these days even famously “nice” Kohn finds herself wanting to breathe fire at her enemies. It was time, she decided, to look into the epidemic of hate all around us and learn how we can stop it. In *The Opposite of Hate*, Kohn talks to leading scientists and researchers and investigates the evolutionary and cultural roots of hate and how incivility can be a gateway to much worse. She travels to Rwanda, the Middle East, and across the United States, introducing us to former terrorists and white supremacists, and even some of her own Twitter trolls, drawing surprising lessons from dramatic and inspiring stories of those who left hate behind. As Kohn confronts her own shameful moments, whether it was back when she bullied a classmate or today when she harbors deep partisan resentment, she discovers, “The opposite of hate is the beautiful and powerful reality of how we are all fundamentally linked and equal as human beings. The opposite of hate is connection.” Sally Kohn’s engaging, fascinating, and often funny book will open your eyes and your heart.

alencia johnson political strategist: *Democratic Control of Intelligence Services* Marina Caparini, 2016-05-13 The events of September 11, 2001 sharply revived governmental and societal

anxieties in many democratic countries concerning the threats posed by terrorism, organized crime, the proliferation and use of weapons of mass destruction, and other complex security threats. In many countries, public discourse of subjects traditionally considered part of social policy, such as immigration and asylum, have been securitized, while intelligence services have been granted greater resources and expanded powers. This comprehensive volume discusses the various challenges of establishing and maintaining accountable and democratically controlled intelligence services, drawing both from states with well-established democratic systems and those emerging from authoritarian systems and in transition towards democracy. It adopts a multidisciplinary and comparative approach, identifying good practices to make security services accountable to society and its democratic representatives. The volume will engage both academics and practitioners in the discussion of how to anchor these vital yet inherently difficult to control institutions within a firmly democratic framework. As such, it has clear relevance for those concerned with the control and oversight of intelligence and security issues in many countries.

alencia johnson political strategist: *Shortlisted* Hannah Brenner Johnson, Renee Knake Jefferson, 2020-05-12 Winner, Next Generation Indie Book Awards - Women's Nonfiction Best Book of 2020, National Law Journal The inspiring and previously untold history of the women considered—but not selected—for the US Supreme Court In 1981, Sandra Day O'Connor became the first female justice on the United States Supreme Court after centuries of male appointments, a watershed moment in the long struggle for gender equality. Yet few know about the remarkable women considered in the decades before her triumph. *Shortlisted* tells the overlooked stories of nine extraordinary women—a cohort large enough to seat the entire Supreme Court—who appeared on presidential lists dating back to the 1930s. Florence Allen, the first female judge on the highest court in Ohio, was named repeatedly in those early years. Eight more followed, including Amalya Kearse, a federal appellate judge who was the first African American woman viewed as a potential Supreme Court nominee. Award-winning scholars Renee Knake Jefferson and Hannah Brenner Johnson cleverly weave together long-forgotten materials from presidential libraries and private archives to reveal the professional and personal lives of these accomplished women. In addition to filling a notable historical gap, the book exposes the tragedy of the shortlist. Listing and bypassing qualified female candidates creates a false appearance of diversity that preserves the status quo, a fate all too familiar for women, especially minorities. *Shortlisted* offers a roadmap to combat enduring bias and discrimination. It is a must-read for those seeking positions of power as well as for the powerful who select them in the legal profession and beyond.

For *Voices*, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or

poems of less than a page to entire speeches and essays that run several pages. *Voices of a People's History* is a symphony of our nation's original voices, rich in ideas and actions, the embodiment of the power of civil disobedience and dissent wherein lies our nation's true spirit of defiance and resilience.

Stewart, Nina Simone, Ida B. Wells, Shirley Chisholm, Michelle Obama, Yara Shahidi, Winnie Mandela, and more. Packnett threads her observations, inspiration, and personal anecdotes in essays throughout, resulting in a deeply personal book of faith and hope, about how, against it all, Black women continue to move forward. With wisdom, clarity, and conduction, *We Are Like Those Who Dream* monumentalizes the power of what has been spoken while leaving room to listen to what has yet to be said.

alencia johnson political strategist: *The Age of A.I.* Henry A Kissinger, Eric Schmidt, Daniel Huttenlocher, 2021-09-14 Artificial Intelligence (AI) is transforming human society fundamentally and profoundly. Not since the Enlightenment and the Age of Reason have we changed how we approach knowledge, politics, economics, even warfare. Three of our most accomplished and deep thinkers come together to explore what it means for us all. An A.I. that learned to play chess discovered moves that no human champion would have conceived of. Driverless cars edge forward at red lights, just like impatient humans, and so far, nobody can explain why it happens. Artificial intelligence is being put to use in sports, medicine, education, and even (frighteningly) how we wage war. In this book, three of our most accomplished and deep thinkers come together to explore how A.I. could affect our relationship with knowledge, impact our worldviews, and change society and politics as profoundly as the ideas of the Enlightenment.

alencia johnson political strategist: *Herding Donkeys* Ari Berman, 2010-09-28 After the 2004 election, the Republican Party held the White House, both houses of Congress, twenty-eight governorships, and a majority of state legislatures. One-party rule, it seemed, was here to stay. *Herding Donkeys* tells the improbable tale of the grassroots resurgence that transformed the Democratic Party from a lonely minority to a sizable majority. It chronicles the inside story of Howard Dean's visionary yet deeply controversial fifty-state strategy, charting his unpredictable journey from insurgent presidential candidate, to front-running flameout, to chairman and conscience of the Democratic Party in an unexpected third act. Ari Berman reveals how the Obama campaign built upon Dean's strategy when others ridiculed it, expanding the ranks of the party and ultimately laying the groundwork for Obama's historic electoral victory—but also sowing the seeds of dissent that would lead to legislative stalemate and intraparty strife. Revelatory and entertaining, in the vein of Timothy Crouse's *The Boys on the Bus* and Rick Perlstein's *Nixonland*, *Herding Donkeys* combines fresh reportage with a rich and colorful cast of characters. It captures the untold stories of the people and places that reshaped the electoral map, painting a vivid portrait of a shifting country while dissecting the possibility and peril of a new era in American politics.

alencia johnson political strategist: *The Inconvenience of Wings* Lara Foot, 2017-09-28 Set in a landscape of memory and dreams, *The Inconvenience of Wings* tackles the issues of friendship, dysfunction, addiction and angels. This dynamic new drama was inspired by author

Abraham J Twerski's book *Addictive Thinking* that examines the notion of compulsion, addiction, denial and abuse of self as well as conversations on bipolar disorder that Foot had with celebrated psychiatrist Dr Sean Baumann. It was further stirred by her own father who has suffered from dementia for more than a decade.

alencia johnson political strategist: American Islamophobia Khaled A. Beydoun, 2018-04-03 On Forbes list of 10 Books To Help You Foster A More Diverse And Inclusive Workplace How law, policy, and official state rhetoric have fueled the resurgence of Islamophobia—with a call to action on how to combat it. “I remember the four words that repeatedly scrolled across my mind after the first plane crashed into the World Trade Center in New York City. ‘Please don’t be Muslims, please don’t be Muslims.’ The four words I whispered to myself on 9/11 reverberated through the mind of every Muslim American that day and every day after.... Our fear, and the collective breath or brace for the hateful backlash that ensued, symbolize the existential tightrope that defines Muslim American identity today.” The term “Islamophobia” may be fairly new, but irrational fear and hatred of Islam and Muslims is anything but. Though many speak of Islamophobia’s roots in racism, have we considered how anti-Muslim rhetoric is rooted in our legal system? Using his unique lens as a critical race theorist and law professor, Khaled A. Beydoun captures the many ways in which law, policy, and official state rhetoric have fueled the frightening resurgence of Islamophobia in the United States. Beydoun charts its long and terrible history, from the plight of enslaved African Muslims in the antebellum South and the laws prohibiting Muslim immigrants from becoming citizens to the ways the war on terror assigns blame for any terrorist act to Islam and the myriad trials Muslim Americans face in the Trump era. He passionately argues that by failing to frame Islamophobia as a system of bigotry endorsed and emboldened by law and carried out by government actors, U.S. society ignores the injury it inflicts on both Muslims and non-Muslims. Through the stories of Muslim Americans who have experienced Islamophobia across various racial, ethnic, and socioeconomic lines, Beydoun shares how U.S. laws shatter lives, whether directly or inadvertently. And with an eye toward benefiting society as a whole, he recommends ways for Muslim Americans and their allies to build coalitions with other groups. Like no book before it, *American Islamophobia* offers a robust and genuine portrait of Muslim America then and now.

alencia johnson political strategist: Public Policy Making Reexamined Yehezkel Dror, 2017-09-29 Public Policymaking Reexamined is now recognized as a fundamental treatise for public policy studies. Although it caused much controversy when it was first published for its systematic approach to policy studies, the book is acknowledged as a modern classic of continuing importance for the teaching and research of public policy, planning and policy analysis, and public administration. The paperback includes a new introduction updating and supplementing many of the author's original ideas. Professor Dror combines the approaches of policy analysis, behavioral science, and systems analysis in his examination of the reality of public policymaking and his suggestions for its reform. Actual policymaking is carefully evaluated with the help of explicit criteria and standards based on an optimal model approach, resulting in detailed proposals for improvement. He applies a scientific orientation to the study of social facts and theory.

alencia johnson political strategist: The Meaning of Life Marc Mauer, Ashley Nellis, 2018-12-11 I can think of no authors more qualified to research the complex impact of life sentences than Marc Mauer and Ashley Nellis. They have the expertise to track down the information that all citizens need to know and the skills to translate that research into accessible and powerful prose. —Heather Ann Thompson, author of the Pulitzer Prize-winning *Blood in the Water* From the author of the classic *Race to Incarcerate*, a forceful and necessary argument for eliminating life sentences, including profiles of six people directly impacted by life sentences by formerly incarcerated author Kerry Myers Most Western democracies have few or no people serving life sentences, yet here in the United States more than 200,000 people are sentenced to such prison terms. Marc Mauer and Ashley Nellis of The Sentencing Project argue that there is no practical or moral justification for a sentence longer than twenty years. Harsher sentences have been shown to have little effect on crime rates, since people age out of crime—meaning that we're spending a fortune on geriatric care for

older prisoners who pose little threat to public safety. Extreme punishment for serious crime also has an inflationary effect on sentences across the spectrum, helping to account for severe mandatory minimums and other harsh punishments. A thoughtful and stirring call to action, *The Meaning of Life* also features moving profiles of a half dozen people affected by life sentences, written by former lifer and award-winning writer Kerry Myers. The book will tie in to a campaign spearheaded by The Sentencing Project and offers a much-needed road map to a more humane criminal justice system.

alencia johnson political strategist: *How to Fight Inequality* Ben Phillips, 2020-09-29

Inequality is the crisis of our time. The growing gap between a few at the top and the rest of society damages us all. No longer able to deny the crisis, every government in the world is now pledged to fix it – and yet it keeps on getting worse. In this book, international anti-inequality campaigner Ben Phillips shows why winning the debate is not enough: we have to win the fight. Drawing on his insider experience, and his personal exchanges with the real-life heroes of successful movements, he shows how the battle against inequality has been won before, and he shares a practical plan for defeating inequality again. He sets a route map for us to overcome deference, build our collective power, and create a new story. Most books on inequality are about what other people ought to do about it – this book is about why winning the fight needs you. Tired of feeling helpless in the face of spiralling inequality? Want to know what you can do about it? This is the book for you.

alencia johnson political strategist: *Solomon and Marion* Lara Foot Newton, 2013-06-07 Over the years, Marion has watched her life drain away. Children and husband gone, she ekes out her life in a country utterly transformed. But it's the only home she has. As the new South Africa prepares for the World Cup finals, old divisions and suspicions seem as deep as ever, and the intruder she has been expecting, dreading and needing, arrives. Will true reconciliation turn darkness into hope? *Solomon and Marion* is a brand new play from an award winning South African writer, and it recently won the Fleur Du Cap Award for Best New South African Play. Foot is Artistic Director of the Baxter Theatre Centre and has won a bevy of South African theatre accolades. Foot has put most of her energy into helping other playwrights and theatre-makers realise their work, and she has nurtured several dozen new South African plays to their first staging. This includes producing the international hit *Mies Julie* written and directed by Yael Farber. Her own hard-hitting plays tackle social issues and have laid bare the brutality and sickening frequency of child rape in South Africa; *Tshepang* (2002) was based on a real event, the alleged gang rape of a nine-month-old baby by six men in a remote, impoverished community. Foot used refined, ironic humour to sketch a portrait of the community, then turned everyday objects into symbols with horrific poetic effect. *Karoo Moose* (2007) returned to the subject of child rape and a rural town – a shattered, forsaken community where 'there are no fathers'. A 15-year-old girl is sold for sex to pay off the gambling debts of her jobless and spiritually crushed father, 'an opportunist with no opportunities'. And in *Solomon and Marion*, Foot explores the cruelty of the meaningless murders which betray her country. *Hear and Now*, *Karoo Moose* and *Tshepang* are also published by Oberon Books. Winner of the Fleur Du Cap Award for Best New South African Play

alencia johnson political strategist: *Karoo Moose* Lara Foot Newton, 2009-06-11 In a remote and impoverished village in the Karoo, South Africa, a young girl, Thomaza, struggles to survive. A violent and terrifying incident and a chance encounter with an escaped moose changes her life forever. A story of pain, redemption and hope, combining traditional African storytelling and magical realism the multi-award-winning *Karoo Moose* was first produced by the Baxter Theatre, Cape Town.

alencia johnson political strategist: *The Myth and Propaganda of Black Buying Power* Jared A. Ball, 2020-04-01 This Palgrave Pivot offers a history of and proof against claims of buying power and the impact this myth has had on understanding media, race, class and economics in the United States. For generations Black people have been told they have what is now said to be more than one trillion dollars of buying power, and this book argues that commentators have misused this

claim largely to blame Black communities for their own poverty based on squandered economic opportunity. This book exposes the claim as both a marketing strategy and myth, while also showing how that myth functions simultaneously as a case study for propaganda and commercial media coverage of economics. In sum, while “buying power” is indeed an economic and marketing phrase applied to any number of racial, ethnic, religious, gender, age or group of consumers, it has a specific application to Black America.

alencia johnson political strategist: She Proclaims Jennifer Palmieri, 2020-07-21 Take action and shatter the glass ceiling with this empowering and optimistic feminist guide from the #1 New York Times bestselling author of *Dear Madam President*. In an era marked by a frustrating sense of stagnation for women, Jennifer Palmieri has found a way to move beyond the bounds of patriarchy. Building on the lessons shared in *Dear Madam President*, Palmieri argues that women have gone as far as they can in a world made for men, and it is time to break from it. *She Proclaims* declares what most women know in their souls but have yet to say out loud—that they deserve something better than a life where men hold a vast majority of power and women continue to be undervalued. It is a manifesto for the second century of feminism that no longer chases a man's elusive path but proclaims the value, ambition, and emotion women have had all along to change their world by changing how they engage in it. This book celebrates the accomplishments and history of the women's movement, and through personal reflections and stories of other inspirational female leaders, Jennifer shares concrete advice and insights she's learned from her journey out of a man's world that will inspire you to boldly chart your own course in life.

alencia johnson political strategist: Eslanda Barbara Ransby, 2022-02-15 *Eslanda* Essie Cardozo Goode Robeson lived a colorful and amazing life. Her career and commitments took her many places: colonial Africa in 1936, the front lines of the Spanish Civil War, the founding meeting of the United Nations, Nazi-occupied Berlin, Stalin's Russia, and China two months after Mao's revolution. She was a woman of unusual accomplishment—an anthropologist, a prolific journalist, a tireless advocate of women's rights, an outspoken anti-colonial and antiracist activist, and an internationally sought-after speaker. Yet historians for the most part have confined Essie to the role of Mrs. Paul Robeson, a wife hidden in the large shadow cast by her famous husband. In this masterful book, biographer Barbara Ransby refocuses attention on Essie, one of the most important and fascinating black women of the twentieth century. Chronicling Essie's eventful life, the book explores her influence on her husband's early career and how she later achieved her own unique political voice. Essie's friendships with a host of literary icons and world leaders, her renown as a fierce defender of justice, her defiant testimony before Senator Joseph McCarthy's infamous anti-communist committee, and her unconventional open marriage that endured for over 40 years—all are brought to light in the pages of this inspiring biography. Essie's indomitable personality shines through, as do her contributions to United States and twentieth-century world history.

alencia johnson political strategist: The H-Spot Jill Filipovic, 2017-05-02 What do women want? The same thing men were promised in the Declaration of Independence: happiness, or at least the freedom to pursue it. For women, though, pursuing happiness is a complicated endeavor, and if you head out into America and talk to women one-on-one, as Jill Filipovic has done, you'll see that happiness is indelibly shaped by the constraints of gender, the expectations of feminine sacrifice, and the myriad ways that womanhood itself differs along lines of race, class, location, and identity. In *The H-Spot*, Filipovic argues that the main obstacle standing in-between women and happiness is a rigged system. In this world of unfinished feminism, men have long been able to have it all because of free female labor, while the bar of achievement for women has only gotten higher. Never before have women at every economic level had to work so much (whether it's to be an accomplished white-collar employee or just make ends meet). Never before have the standards of feminine perfection been so high. And never before have the requirements for being a good mother been so extreme. If our laws and policies made women's happiness and fulfillment a goal in and of itself, Filipovic contends, many of our country's most contentious political issues -- from reproductive

rights to equal pay to welfare spending -- would swiftly be resolved. Filipovic argues that it is more important than ever to prioritize women's happiness-and that doing so will make men's lives better, too. Here, she provides an outline for a feminist movement we all need and a blueprint for how policy, laws, and society can deliver on the promise of the pursuit of happiness for all.

alencia johnson political strategist: *The Fight for \$15* David Rolf, 2015-04-07 "Rolf shows that raising the minimum wage to \$15 is both just and necessary, lest the American dream of middle class prosperity turn into a nightmare" (David Cay Johnston, Pulitzer Prize-winning journalist). Combining history, economics, and commonsense political wisdom, *The Fight for \$15* makes a deeply informed case for a national fifteen-dollars-an-hour minimum wage as the only practical solution to reversing America's decades-long slide toward becoming a low-wage nation. Drawing both on new scholarship and on his extensive practical experiences organizing workers and grappling with inequality across the United States, David Rolf, president of SEIU 775—which waged the successful Seattle campaign for a fifteen dollar minimum wage—offers an accessible explanation of "middle out" economics, an emerging popular economic theory that suggests that the origins of prosperity in capitalist economies lie with workers and consumers, not investors and employers. A blueprint for a different and hopeful American future, *The Fight for \$15* offers concrete tools, ideas, and inspiration for anyone interested in real change in our lifetimes. "The author's plainspoken approach and stellar scholarship illuminate in-depth discussions about the deliberate policy decisions that began to decimate the middle class at the start of the 1980s as well as the insidious new ways in which big business continues to attack American workers today via stagnant wages, rampant subcontracting, unpredictable scheduling, and other detrimental practices associated with the so-called 'share economy.'" —Kirkus Reviews "David Rolf has become the most successful advocate for raising wages in the twenty-first century." —Andy Stern, senior fellow at Columbia University's Richard Paul Richman Center for Business, Law, and Public Policy
